If you require good serviceable implements get Collard's Flexible Iron Harrows, Cultivators and Iron Combined Horse Hoes. These implements are extensively used and have given and continue to give general satisfaction. For strength, efficiency and durability they cannot be surpassed. The Harrows can be made to cut any width of ground and of any size of iron required. Many object to them because they are too heavy. This they need not do as I am now manufacturing Harrows suitable for any soil, from 100 lbs. in weight and less up to any weight they may want. The harrow teeth are all steel pointed. Is health worth having? If it is protect it—it is a jewel as easily lost as virtue, and in many cases as difficult to recover. In this climate, and more particularly at this season of the year, people are very art to take cold, and suffer from sore throat, coughs, Ppitting of blood and pulmonary complaints generally, which if not checked immediately lead to serious consequences. The question arises—which is the quickest and most effectual remedy? Bryan's Pulmonic Wafers have been before the public for twenty years, and have always given perfect estisfaction, and invariably effect permanent cures when taken in season. Sold by all medicine dealers and country stores generally throughout the Province, at 25cts per box. VERY REMARKABLE.— Prominent citizens will congregate on the side-walk where the bullion is piled waiting loading on the stage, and will pick up the heavy bars and "heft" them, with scarce any apparent exertion. And yet when the wife of any of these same prominent citizens tells him to "bring in an armful of wood, you lazy brute," he average by all the gode that lifting gives him a crick in the "spine of his back."—Austin (Nev.)
