

CARTER'S LIVER PILLS

CURE SICK HEADACHE

Headache and nervousness are the leading troubles of the day. They are caused by a bilious condition of the system, such as indigestion, constipation, and other ailments. While there are many remedies, only one has been shown to be reliable. This is **Carter's Little Liver Pills**. They are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver, and regulate the bowels. Even if they only cure the headache, they are worth trying.

Acting they would be almost priceless to those who suffer from this distressing complaint, but fortunately their goodness does not stop here, and those who once try them will find them little pills valuable in so many ways that they will not be willing to do without them. But after all, sick head

ACHE

is the base of so many troubles that have to be cured by the use of these pills. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. Only two pills a day. They are strictly vegetable and do not grip or irritate, but by their gentle action please all who use them.

PRESBYTERIAN SYNOD MEETS.

Commissioners for the Maritime Provinces and Newfoundland Assemble at Halifax.

FAVOR PROHIBITION.

27,500 Families Represented—
Finances Satisfactory.—Korean Missions Successful.

The Synod of the Presbyterian Church in the Maritime provinces opened in Halifax on the 1st instant, with the largest attendance on record. Rev. A. B. Dickie was elected moderator.

It was reported that the denominational organ, the Presbyterian Witness, was increasing in circulation satisfactorily.

A communication from the Methodist Church, looking towards a consolidation of church work, was favorably received.

It was decided to delay the appointment of a permanent professor for the vacancy in Pine Hill college until the Presbytery had time to make nominations.

The report of the committee on temperance was presented by Rev. R. Grant. The importance of educational work and the promotion of a temperance sentiment was urged. The part of the press in the work was commented upon and the intense partisanship of some papers was deplored. So also was the publication of details of revol-

THAT BILIOUS FEELING IS CURED BY

MOTHER SEIGEL'S SYRUP, which acts directly on the liver and stomach, quickly restoring them to healthy natural action, and thus it cures biliousness and indigestion.

SYNOPSIS OF CANADIAN NORTH-WEST.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situated. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead conditions under one of the following plans:

- (1.) At least six months' residence upon and cultivation of the land in each year for three years.
- (2.) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person, residing with the father or mother.
- (3.) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex. Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-a-tives

on (FRUIT LIVER TABLETS.) remove the CAUSE of these diseases. "Fruit-a-tives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and thus purify the blood. "Fruit-a-tives" take away those distressing headaches, backaches and bearing-down pains, and make women well and strong. "Fruit-a-tives" are fruit juices, intensified, with tonics and antiseptics added. See a box—6 for 50c. At all druggists—or from Fruit-a-tives Limited, Ottawa.

If real coffee disturbs your Stomach, your Heart or Kidneys, then try this clever Coffee imitation—Dr. Shoop's Health Coffee. Dr. Shoop has closely matched old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in one minute. No tedious long wait. You will surely like it. Get a free sample at our store.

THOS. J. DURICK.

ing crime, of liquor advertisements, etc. It was shown that the record of Prince Edward Island for sobriety is far ahead of Nova Scotia. The report scored the license system as ineffectual in lessening the evils of intemperance. The synod, said the reporter, could not therefore look favorably upon legislation looking to the issuing of further licenses. A law more effective than the Scott Act was wanted. The attitude the Presbyterians made to the drink traffic, said the report, was one of uncompromising hostility. The report recommended that members give the question of temperance and moral reform due prominence. The recommendation was passed.

The Home Mission report was encouraging. In New Brunswick there was remarkable progress in church building, debt-paying and church repairing. Contributions were ample, but men were scarce. Payment of probationers was increased to \$12.00 a week. Efforts had been made to lessen the number of closed schools in Cape Breton. The church in New Brunswick had increased by three congregations, and another is coming shortly.

Presbyterian missions in Korea are very successful. There are 900 active churches with a congregation of from 100 to 2000 each.

The Synod purposes raising \$50,000 a year for foreign missions, and a similar amount for home missions.

Synod adjourned late on Wednesday night.

This Synod includes all New Brunswick, P. E. Island, Newfoundland and Labrador, Nova Scotia, and parts of Quebec. The Synod embraces 719 (preaching places, 197 Manse, or rented houses 27,500 families, 43,050 communicants. 2,460 were received last year on profession of faith; removed by death or certificate, 2,165; baptisms 2,478; adults baptised 231; elders 1,660; G. S. enrolled 30,447; Stipend paid by congregations \$201,835; from other sources \$15,774; payments for all missionary purposes (including benevolence), \$509,873. Value of church property is less than \$300,000.

The Synod supports three missionaries in the New Hebrides; and an increasing band in Trinidad and British Guiana and in Korea. The Synod has a College at Halifax training candidates for the ministry in Trinidad for the purpose of try.

To check a cold quickly get from your druggist some little Candy Cold Tablets called Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly certain and prompt. Preventives contain no Quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventives. Good for feverish children. 48 Preventives 25 cents. Trial boxes 5 cts. Sold by THOS. J. DURICK

REGULATIONS RE MEAT PACKING.

Important Changes in the Law Regarding Inspection of Dressed Meats.

NEW REQUIREMENTS.

The custom prevailing among farmers throughout Canada slaughtering animals, particularly swine, upon their own premises and selling the dressed carcasses on the local market, is one which entails more or less loss to the producer. Before the advent of packing establishments, the domestic trade was supplied by the local butchers, who were necessarily compelled to provide for future supplies, and, as a result, the local markets were created. Conditions have changed, however, the local dealers no longer supplying the domestic trade, which has passed into the hands of the packing houses, which are now the distributing centres for meats. Packers can afford to, and actually do, pay higher prices and sell at lower values than the local butchers for reasons which are obvious when one considers that the profits are represented by the by-products. The packers are adverse to buying dressed carcasses as they represent smaller profits in by-products; and again dressed carcasses are imperfectly handled by the farmer, the meat in many cases being bruised and unsightly, this, as well as improper chilling, being deterrent to good prices. Animals, especially hogs, require scientific chilling, otherwise those parts which enter into the process of curing become sour and unfit for market. Packers prefer to buy their meats on the hoof, and for the reasons set forth above, are able to pay higher prices for the same.

In view, however, of the large trade carried on in some parts of Canada, more particularly during the fall and winter, in dressed pork as well as in other dressed meats, attention may be directed to one of the regulations made under the new Meat Inspection Act, which is likely to have considerable effect on the business referred to above. The Department of Agriculture at Ottawa having resumed the responsibility of inspecting and practically guaranteeing the healthfulness of all meats and meat products sent out by the packing houses, must, of necessity, protect itself by making sure that no diseased carcasses are permitted to enter into these establishments. The most effective way of preventing the entry of such diseased meat is, of course, the careful ante-mortem inspection provided for by the regulations, but in view of the large trade carried on in dressed carcasses, and the fact that both farmers and packers have been in the habit of handling meats in this way, the officials in charge of the enforcement of the Act have decided to admit to the establishments under inspection, dressed carcasses under such conditions as will enable them to judge with reasonable certainty, as to whether the animal, prior to slaughter, was free from disease. Provision has therefore been made for the admission on inspection, of dressed carcasses with the head, heart, lungs and liver held by their natural attachments, such carcasses to be inspected before entering the establishment, and if found fit for food to be so marked and admitted for packing purposes, while if found to be diseased, to be condemned and tank-

This being the case, it is incumbent upon every farmer bringing dressed hogs or other animals to market to remember that unless the carcasses are dressed in accordance with the regulation mentioned above, namely, with these organs left in their proper position it will not be possible for the representatives of the packing establishments coming under the operation of the meat and Canned Foods Act.

The presence of the buyers or agents on our local markets has always been, at least to some extent, a safeguard against possible attempts by local combinations of butchers and others to depress the price of dressed meats, and it will be well for producers to bear in mind the new conditions and when for any reasons, unable to market their stock on hoof as they should undoubtedly do whenever possible, dress their hogs, as well as other animals, in such a way as to meet the requirements of the new Act.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—
Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in the back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:—

"Before taking Lydia E. Pinkham's Vegetable Compound my periods were irregular and painful, and I always had such dreadful headaches. But since taking the Compound my headaches have entirely left me, my periods are regular and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no rival in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of cures of female ills of any medicine that the world has ever known. Why don't you try it?

Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.
