

HOW TO CURE A HEADACHE

To attempt to cure a headache by taking a "headache powder," is like trying to stop a leak in the roof by putting a pan under the dripping water. Chronic headaches are caused by poisoned blood. The blood is poisoned by tissue waste, undigested food and other impurities remaining too long in the system. These poisons are not promptly eliminated because of sick liver, bowels, skin or kidneys.

BATHURST.

BATHURST, N. B., Tuesday.—Thanksgiving Day passed off very quietly here. The day was dull, and cold, and rain fell during the evening. J. Harold Kent, of Mount Allison University, and Miss Maggie Kent, of the Ladies' College, Sackville, spent the holiday at their home here.

Mr. and Mrs. W. A. Craig, and Child, of Dalhousie, spent Sunday with Mrs. E. McLean. Fred White, of the Royal Bank, Dalhousie, spent the holiday with his parents at the "White House."

Frank Gattin, who is attending the Kerr Business College, St. John, was in town Sunday and Monday.

Mr. W. F. Pepper has moved into his new dwelling on Douglas street. An assault and battery case is being heard before Magistrate Edward L. O'Brien, today. N. A. Landry for the complainant, and J. P. Byrne for the defendant. A. J. Venot is acting as interpreter.

Skating was enjoyed by many on Kent's pond yesterday morning.

Read the pain formula on a box of Pink Pain Tablets. Then ask your doctor if there is any better one. Pain means congestion—blood pressure somewhere. Dr. Shoop's Pink Pain Tablets check head pains, womanly pains, pain anywhere. Try one, and see! 20 for 25c. Sold by all dealers.

PROTECT YOUR TOWN. You may dislike taking medicine, but coughs are best cured without medicine. The modern treatment is "Catarrhosone"—it isn't a drug—it's a healing vapor, full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed, irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhosone. In 25 ct. and \$1.00 sizes at all dealers.

POINTED PARAGRAPHS. In hustling for No. 2, a widow looks out for No. 1. In an affair where a man doesn't know his son can teach him. A man's enjoyment of a cigar is not governed by the cost thereof.

CAREY WAS FORMER P. E. ISLAND MAN. CHARLOTTETOWN, P. E. I., Tuesday.—Edward Carey, whose wife, five daughters, and a visiting school teacher were burned to death at Swan River, Man., last week, and who is probably fatally burned himself, as a result of an explosion of coal oil, was a son of the late Captain Carey, R. N., formerly of Charlottetown, and a brother of Mrs. F. Parker Carvell, now in Montreal.

Every married woman should imagine that her husband is the only man who has brains enough to understand her.

Lazy Lewis—A feller wot's blind has it on de rest of us travelin' peepers. Sleepy Solomon—Wot'd de answer Lazy Lewis—He don't even hafter pretend t' be lookin' fer work.

My friend Harker is engaged to a theatrical woman, said Singleton. Theatrical woman! exclaimed Wedderly. Say, did you ever see one that wasn't?

Growells—I discovered a hired assassin in our house this morning. Howells—You don't say. Growells—Fact. My wife advertised for a cook and she got the job.

Americans expect nothing from the promised tariff-reform session and they shall not be disappointed. The head joker explains the tumble in values on the mining stock market as a result of the election of Taft.

It will soon be seen how whether the election of Mr. Taft simply means four years more of Teddy the Trust-buster.

Women who have watched the American Presidential campaign may say that men are too emotional to be granted the franchise.

When her late Majesty received the plan of Emperor William for the reduction of the Boers she probably remarked it as one of Willie's pranks and promptly put it under the teakettle.

Bethain will have half a million odd-age pensioners. Those who regard their pensions as the additional wages they earned but did not receive will not class the pensions as a public burden.

A HARD DRY COUGH. Mr. J. L. Purdy, Millville, N.S., writes:—"I have been troubled with a hard, dry cough for a long time, especially at night, but after having used Dr. Wood's Norway Pine Syrup for a few weeks, I find my cough has left me. To any person, suffering as I did, I can say that this remedy is well worth a trial. I would not be without it in the house."

DR. WOOD'S NORWAY PINE SYRUP. Combines the potent healing virtues of the Norway pine tree with other absorbent, expectorant and soothing medicines of recognized worth, and is absolutely harmless, prompt and safe for the cure of COUGHS, COLDS, BRONCHITIS, HOARSENESS, CROUP, SORE THROAT, PAIN or TIGET-NESS in the CHEST, and all throat and lung troubles. It is put up in a yellow wrapper, 3 pine trees the trade mark and the price 25 cents.

BRITAIN WILL SEND FLEET ON A CRUISE

Will Touch at Many Points in Different Parts of the World.

A LONG CRUISE

WASHINGTON, Saturday.—England is about to follow the example of President Roosevelt in sending a fleet of battleships and cruisers on a trip around the world, for the purpose of bringing home to her various colonial dependencies a notion of her naval supremacy and of her power to furnish adequate maritime protection against any danger which they may fear of foreign invasion and attack.

Of course the despatch of the fleet in question will depend on the peaceful settlement of the troubles which have arisen in the southeast of Europe.

At the time when the visit of one American battleship to Australia was first announced attention was called to the regret expressed in influential quarters in England that there was no British naval force of corresponding importance in Australian waters to take part in welcoming them there and to the fears entertained in London with regard to the impression likely to be caused thereby in the antipodes.

These apprehensions have been realized, and the utterances of statesmen and of politicians as well as of the public press, in Australia and New Zealand leave no doubt as to the existence of the conviction today among the white population there that in the event of trouble with Japan, which is what they dread more than anything else they would have to look to the United States and to her navy for assistance and protection rather than to Great Britain.

It is for the purpose of counteracting and removing this popular impression in the antipodes and of assuring the people there by means of a visible demonstration that the English navy is double the size of that of every other nation in the world, and fully powerful enough to furnish maritime protection to all her colonial dependencies, no matter how remote, that a great British battleship and cruiser squadron is now about to be sent on a progress round the world, similar to that devised by President Roosevelt for the American fleet.

DO NOT NEGLECT YOUR COUGH. You may dislike taking medicine, but coughs are best cured without medicine. The modern treatment is "Catarrhosone"—it isn't a drug—it's a healing vapor, full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed, irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. NAPOLEON SAID

"An army marches on its stomach." By that he meant that half-starved men and women are not strong enough to work, or to play and be happy. You should also know that indigestion means slow starvation. More than half the people who soon tire and become depressed, who feel life a burden and who go listlessly to the day's work, would find life a daily song if they set their digestive organs to work. Mother Seigel's Syrup—the digestive tonic compounded of food and herbs. Take it daily after meals and test its power.

MOTHER SEIGEL'S SYRUP

NEWCASTLE, Tuesday.—The marriage of Miss Jessie H. Gerke, daughter of Mr. and Mrs. D. Gerke, of Douglastown, and Allen A. Russell, of Xofin, was solemnized on the 31st inst., in Chatham by the Rev. J. Morris McLean. After the wedding Mr. and Mrs. Russell drove to Douglastown, where a reception was held at the bride's home. The bride received many handsome and useful presents.

The schools of Newcastle are still closed on account of the scarlet fever epidemic. One new case was quarantined yesterday. There have been no deaths lately.

STOP SWEARING. It is Nothing but a Habit and is very Easily Cured.

Don't swear or you'll catch no fish. Was a remark made the other day by a venerable inhabitant to a much younger man, who was emphasizing his talk by the use of "cuss words." These plethoric, no one was engaged in fishing at the time, and was a plethoric excursion being thought of. The suggestion was made in the back room by a sign on the wall which read, "Men were talking over current events, the utterance made by the aged citizen was intended, as he afterwards said, to show his abhorrence of the nonsensical use of "cuss words." They felt called upon to deliver a little homily to his companions all of which like himself, are well known residents of Washington.

"Men in swearing," he said, "they are really useless, and in my opinion, swearing is one of the worst of them. One can see why, in moments of passion or great excitement, a person may indulge in swearing, but that some men, and I know several of them, should break out with a series of oaths in ordinary every day conversation strikes me as beyond comprehension. I presume we have all met men who regard themselves and are so considered as gentlemen who rarely express a sentence without swearing. More than that, they seem rather proud of their proficiency in this direction. I tell you that swearing is a habit that a little determination will easily overcome."

The sermon coming from the lips of a man whose hair and beard were as white as snow, had a good effect. The cigar merchant was so impressed that he declared he would hang up a sign in his back room which should read, "Gentlemen Are Requested Not to Swear on These Premises." Whether they allowed themselves the privilege of "cussing" elsewhere, he said, was no affair of his.

YESTERDAY BEING GUY FAWKES' DAY the members of Bowler L. O. L. No. 123 celebrated the occasion by a goose supper for their wives and families. Supper was served at eight o'clock. About one hundred persons gathered around the well filled tables and a very enjoyable evening was spent. The menu was elaborate and the members of the society are to be highly complimented on the manner in which they carried this event to a finish.

The light fall of snow a few days ago has left our sidewalks in a very treacherous condition and walking is rather dangerous.

Mrs. George W. Ellis has gone to Gloucester Junction to join her husband, who was appointed I. C. R. agent there some time ago.

Miss Girvan has gone to St. John for a short visit.

In York County, N. B., a boy who shot another good for brain workers. Knox—That explains it. Crox—Explains what? Knox—Why they are barred from polite society.

The Widow—The way to interest a man is to talk about what he is most interested in. The Maid—But I soon tire of talking about the man I am talking to.

INVENTED SAFE HEADACHE CURE. A way with headache be done with dizziness, bad stomach and biliousness. A cure has been found—use Dr. Hamilton's Pills and enjoy the health they so surely bring. Nothing but healthful vegetable extracts in Dr. Hamilton's Pills. They cleanse and purify the whole system, act as a tonic. Safe for children, girls, women and men. Sold in 25c. boxes by all dealers.

Mr. John Burns has been telling the unemployed in Great Britain that they should drink more alcoholic beverages than is good for them. The charge would probably be also against many of the employed. The big beer bills of the British people are good for the revenue, but weakening for the revenue producers.

John D. Rockefeller will be justified in thinking that he is something of a vote-getter.

COUNTY COURT IN SESSION NOW AT DALHOUSIE

Three Criminal Cases To Come Up Before His Honor.

TRUE BILLS

(Special News Service.) DALLHOUSIE, N. B., Tuesday.—The November term of the District Court county court opened today, at 11 a. m., Judge McLatche presiding. Lawyers in court were W. A. Trueman, A. T. LeBlanc, James S. Harquail. There was a full attendance of justices, called from different parts of the county, and a great many spectators.

Three criminal cases will engage the attention of the court this week, as follows: The King vs. Charles Debra, larceny. The King vs. Arthur Neilson, burglary. The King vs. Christiana Tremblay, larceny.

True bills were found by the grand jury in each case, and as the prisoners were brought into court to be arraigned, each one answered in a firm voice "not guilty" to the question put by the clerk of the court, "are you guilty, or not guilty?"

The first case taken up was that of the King vs. Charles Debra, for stealing money in Campbellton. The Crown is represented by W. A. Trueman.

In the above case the prisoner was found guilty of offence charged and sentenced to three years imprisonment.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of doing the stomach or stimulating the Heart or Kidneys is surely wrong. Dr. Shoop first pointed out this error. Go to the weak or ailing nerves of these organs," said he. Each inside organ has its controlling or "inside" nerves. When these nerves fall then those organs must surely suffer. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by all dealers.

In the observatory of Columbia university is one of the most accurate clocks in the world. It has run for several months with a mean error of only 13-1000 of a second, and a maximum error of 30-1000 of a second per year. That means that it does not vary more than half a second a month or six seconds in a year.

Compare this with the first pocket timepiece, the "Animated Egg of Newton," which requires "winding" twice a day, and "rings" an hour and a half in the same time! Compare it with the highest priced watches manufactured today, which often vary more than 10 seconds a week, and you will have some idea of the refinements in the science of measuring time. Yet even this accuracy is surpassed by some famous timepieces, if the trade magazines are to be believed. There have been accounts in them of clocks or watches that have not varied less than a second in periods so long as ten years.

The clock of the University of Columbia is an astronomical clock. It is surrounded by a glass case in which a partial vacuum is maintained, and in order that the case may not be opened or disturbed the winding is done automatically by electricity. The clock is set up in a room especially constructed to keep it free from a jar or vibration. The temperature and barometric conditions are maintained practically constant, and every possible precaution is taken to minimize the errors of the running rate.

It is not generally appreciated that clocks of the present type, although used as far back as the twelfth century, and possibly earlier, were but fair timekeepers, until some centuries later. In fact it has only been within the last few decades that really accurate clocks have been manufactured. Those which the astronomers used in their observations, at the end of the eighteenth century, were of a different type, modified forms of the water clocks of the ancients were often employed as checks upon them. Galileo's discovery of the isochronism of the pendulum from the swinging chandelier in the church of Pisa was of a great value in its application to the measurement of time. The inventions of the mercurial and compensating pendulums have added materially in cutting down the errors of the running rate and controlling the motions of clock mechanism.

Crox—They say that onions are especially good for brain workers. Knox—That explains it. Crox—Explains what? Knox—Why they are barred from polite society.

The Widow—The way to interest a man is to talk about what he is most interested in. The Maid—But I soon tire of talking about the man I am talking to.
