The Only One of the Kind.

To the Editor of the Times:

Sir.—The City Improvement Society has certainly made a good start. I notice that Dr. Ryall has recommended the regular flushing of sewers as an offset against that dreaded scourge, diphtheria. If some of the society's other suggestions to the Council are carried out they certainly must tend to the health of the city. Precautions at this season of the year should be taken at once. The garbage question should be the first one on the list. All interested in the progress of Hamilton should join the society, which they can do, I understand, by handing their name and address, with \$1, to C. Dexter, the Secretary, who may be found at the Hamilton Colored Cotton Company's mill, MacNab street north.

City Improvement Society,

To the Editor of the Times: Sir.—When in Galt this week I was much struck with the very cleanly appearance of the town. Their main street is a credit to them. The merchants vie one with the other in having it kept free of papers, stones and all kinds of rubbish. Our people can do the same here by working together.
