

GILMAN'S HAIR DYE.

The best article ever used, as hundreds can testify in this city and surrounding country. Read! GILMAN'S LIQUID HAIR DYE instantaneously changes the hair to a brilliant jet Black or glossy Brown, which is permanent—does not stain or in any way injure the skin. No article ever yet invented which will compare with it. We would advise all who have grey hairs to buy it, for it never fails.

The Great American Hair Tonic.

Bogle's celebrated Hyperion Fluid, for the growth and preservation of the Hair is well known to be without a rival on this continent. Hundreds of imitations have started into an ephemeral existence since the introduction of this unrivalled Hair restorative, and their doom been sealed, whilst Bogle's Hyperion Hair Fluid, with a popularity never attained by any other article, goes on "conquering and to conquer." There is no malady, which can affect the Hair but can be cured by this incomparable preparation. To ladies it is invaluable; and on children's heads it lays the foundation of a good head of Hair. It is now patronized by Her Majesty the Queen of Great Britain, and commands an extensive sale throughout Europe.

Bogle's Electric Hair Dye converts red or grey hair into a beautiful black or brown, the moment it is applied, literally dyeing the hair without staining the skin and leaves the Hair soft and glossy without injuring its texture in the least; a decided superiority over all other Hair dyes.

Bogle's Amole Shaving compound renders that usually unpleasant operation (shaving) a decided luxury.

Bogle's Hebeonina removes Freckles and tan from the face in the shortest possible time, and is acknowledged to be the very best article for beautifying the complexion.

To be had, wholesale or retail, of W. Bogle, 227 Washington street, Boston, U. S.

And by all Druggists and perfumers throughout the Canada, United States and Great Britain. W. R. WATSON, Agent for P. E. I.

A CARD.

THE Subscriber returns his sincere thanks to the
public generally, for the marked patronage
which they have manifested towards the Steamer
Rosebud, during the past season. Although she has
not proved as speedy as her most sanguine friends
expected, it cannot be denied that she has rendered
a very considerable service to the traveling public,
between this Island and Nova Scotia.

In the absence of that paternal regard for home
production and enterprise, in which modern popular
Governments are supposed to excel, and in the face
of the most determined opposition,—the Rosebud has
performed her bi-weekly trips, between Charlottetown
and Pictou, for the last 5 months, with almost un-
derstanding regularity, and without even the smallest
accident. Much of this success is justly due to the
well known skill of Captain Matheson.

The Rosebud is now laid up for the winter, and
the Subscriber anticipates her being placed on the
route, next year, with additional speed, and in such
condition as will ensure the fullest support of the
travelling public.

Newly Improved
"MODEL MELODEONS,"

MASON & HAMLIN,
BOSTON.

To which will be added the Colonial duty only.
This beautiful Musical Instrument, the Melodeon,
is now so well known, that we deem it unnecessary
to give a lengthy description of it. We will only
state that it is played upon the same as the Piano
Forte, the key-board, being precisely similar. Any
one who plays upon the Piano, will be able to per-
form upon the Melodeon at once. It will be seen
that there are two pedals attached; one of these,
that to the right, is used to supply the bellows with
wind, and the other governs the swell; by means of
this latter, a most beautiful crescendo and diminuendo
may be produced.

We respectfully invite attention to the newly im-
proved "MODEL MELODEONS" as we think they
will be found to be superior in many respects to any
others. Please examine them carefully, and test
them will, paying attention, among other things,
to the following points, viz: 1st.—Their superior quality
of tone. 2d.—Their great power of tone. 3d.—
Their perfect equality of tone. 4th.—Their prompt
and even action. 5th.—Their beautiful style of
finish. 6th.—Their durability. 7th.—Their excel-
lent tone. 8th.—Their cheapness. Mason & Hamlin
have great facilities in the manufacture of these
Instruments. Mr. Hamlin himself has probably had
more actual practical experience in the business,
than any other man, having been constantly engaged
in it from the time they were first introduced;—for
more than six years he has had the entire super-
intendence of the tuning and mechanical departments
of the most extensive Melodeon manufactory in the
United States. They have engaged the very best
of mechanics in the different departments of man-
ufacture; those who have had long experience, many
of them having worked at similar instruments from
the time of their invention. From Voicers and
Tuners are acknowledged to be the most expert in
the country. The voicing and tuning of the
Melodeon is the most difficult part in its manufacture.
On this depends mainly, the quality and quantity of
tone, and the durability of the reed. They make it
their first great cardinal principle, that every instru-
ment be as perfect in all respects as possible, and
each one, before leaving the manufactory, undergoes
a close examination from both of the partners; and
none are allowed to go forth, in which the slightest
defect, either in the case, or in the interior of the
Instrument, can be detected. By adhering strictly
to this principle, they trust to secure the confidence
and patronage of the public.

Every instrument is carefully packed in a
neat and strong box, and fully warranted.

The following opinions in regard to the "Model
Melodeons," from distinguished musicians, we select
for publication.

[From Lowell Mason.]

"After having carefully examined the Melodeons
of Messrs. Mason & Hamlin, I am enabled to say,
that, in my opinion, they are decidedly superior to
any others with which I am acquainted."

LOWELL MASON.

New York, July 1, 1854.

[From William B. Bradbury.]

Messrs. MASON & HAMLIN,
Gents,—I heard with pleasure of your com-
mencing the manufacture of Melodeons, feeling as-
sured that you would be able from your practical
skill, ample facilities, and peculiar advantages, to
effect important improvements in the construction of
these Instruments. Having now had an opportunity of
examining a number of your Instruments, I am by no
means disappointed in the result. You are certainly
producing Melodeons, which, in all desirable char-
acteristics are, so far as I can perceive, faultless.
An Instrument possessing so many beauties, is admi-
rably adapted to the parlor and the church, and I am
satisfied that so soon as the public become acquainted
with the superior merits of your Instruments, your
only trouble will be to supply the demand.

WILLIAM B. BRADBURY.

New York, June 2, 1854.

[Extract from an Editorial Notice in the "New
York Musical Review" of May 11th, 1854.]
"Considering the ample facilities of this firm,
and the varied and extensive experience of the dif-
ferent partners, as well in the wants of the public
and the points which constitute good instruments,
as in their practical manufacture, we have every
confidence that they will accomplish all they aim
at."—We have had an opportunity of examin-
ing some of the instruments now finishing at their
factory, and can certainly recommend them to all
our friends, who may have occasion to purchase."
