The gas range is a muscle saver and step saver. Think of the many tons will bring roses to the cheeks and gale a-trying to keep the invalid from all twice; first, carrying it up out of the cellar; then, from the kitchen to the ash barrel. No more soot to wipe away: no mor

smoke and no more reason why th kitchen cannot be kept as clean and as orderly as the parlor. The gas Saves 50 Per Cent. of Kitchen

Cares.
Half of the labor in the house is caused by dust from the coal range Every time it smokes, no matter how good the draught may be, clouds of asaes rise and settle on the furniture. It Eliminates Hard Work.

Use a gas range and you will live etter, you will play better, and you will work better because the use of the gas range eliminates the drudgery of carrying coal, ashes and the chop-ping of kindling, as well as the drudgery of cleaning up a lot of dirt, and, best of all, for the cook it makes unnecessary for her to stand over a day.

## **About Pictures and** their correct framing.

The art of Picture-framing is a more intricate one than is generally understood. It is not merely the making of a frame, but the selection of suitable Mouldings for the many different subjects, as pictures that are undoubtedly beautiful are often spoilt by unsuitable framing.

We have for many years made Picture-framing a special feature.

We have workshops fitted with the most mod-
