A Brute Dips a Boy's Head in a Vat of Vitriol.

Terrylle, Conn., Oct. 19.—A brutal crime was perpetrated by Engineer James A. Bradshaw, of the Eagle Loch Company, Saturday afternoon. As he was going through the shop he approached W. A. Hough, aged 17 years, who was at work cleaning locks at his bench, and ordered him to go to another part of the shop on an errand. Bradshaw has no authority over the men in the factory, and the boy, acting on the advice of the men in the room, refused to obey. Bradshaw repeated the command, and on a second refusal, picked the boy up in his arms, and carrying him to a vat of vitriol in the room, dipped him in, head downward, several times before the other employes of the room, too horrified to stir at first, could interfere.

The boy's screams were agonizing. His hair was all burned off, his scalp was raw, his face and neck were horribly burned, and both eyes were burned out. His recovery is doubtful.

Bradshaw returned to the engine room and was at once discharged. He walked out of the shop unmolested, and has not yet been arrested. The employes of the shop, among whom Hough was a general favorite, threaten to lynch the brute if they find him. Bradshaw is married and is 35 years old.
