The American Stage Indorses Newbro's Herpicide

Beautiful hair, full of snap and life, is more essential to woman's beauty than regular features. Herpicide enables every woman to have beautiful hair, which imparts that subtle charm and attractiveness of true loveliness.

Herpicide destroys the dandruff germ. It keeps the head clean, prevents the hair from falling, making it soft, bright and luxuriant.

I am delighted with Herpicide. It

The Reason for a Substitute

A larger profit can be made from a "just as good" article. That's why it is offered when you ask for the advertised and original. The substitute is not permanent. It is put out to make money. The manufacturer has no reputation at stake.

For every advertised article of merit there are many substitutes, things that are "just as good." Persons of fastidious tastes buy the original preparation because they know it to be better than anything "just as good."

Newbro's Herpicide is the genuine and original dandruff germ⁻destrover.
