Ho! For Griddle Cakes and Maple Syrup

Spring is here at last and the sap is flowing free. Now for light, digestible foods and a merrier life under warmer skies. Bring along the griddle cakes and plenty of them. Add plenty of the juice of the maple—the syrup that kings would approve. But, good housewife! If you want your griddle cakes to reflect great credit on you, see that you make them with

PURITY FLOUR

the flour that is famed simply because it "makes more bread better bread." Purity is the name Canada's extra special flour rolled in bright sun-lit mills from Canada's extra special wheat. No other flour can with it compare. It imparts a flavor and a richness to griddle cakes that makes them sur-

passingly delicious. Make anything the family desires (anything that you can make with flour) with Purity and your reputation as a cook will go up several notches at least.

"More Bread and Better Bread"

Purity Flour is richer, stronger flour than ordinary makes. It takes more water and yields more bread. It also takes a little more sifting, on account of its extra strength, when making pasts. And Purity only costs a little more, although all users would

gladly pay a good deal more rather than return to common flour. Now, bring on the griddle cakes made from Purity Flour and plenty of good Maple Syrup on the side!

N.B.—Put Purity on your grocery list—you'll keep it there.

This morning the over, which had inundated a large section of territory along the banks, been to rest, and it is now believed that there is further danger of damage. Large numbers of men are at work preventing ice jams on the river, which run along the side and east sides of the city.

ANOTHER CAUSE FOR HIGHER COAL PRICES

Railways Advance the Rates For Niagara to Points in Canada.

[Canadian Press.]

Ottawa, April 8.—The advance of rates on haulage from the Niagara frontier to Canadian points by the railways on May 1st is the latest cause to develop for an increase in prices. The railway companies will at this time be protesting the Canadian Coal Association and other relative of the proposed tariff of the companies embodying the advance.

Canadian Northern expresses rates from points on the Central Ontario Railway, by discrimination in the express company's town tariffs will also come up.

De Vries, in an endeavor to adopt a new agreement, will hold a meeting here tomorrow to put in shape their arguments for presentation at the conference. The officers at the district headquarters in Schenectady, Hazleton and Shamokin are in a hopeful mood, and expect an amicable settlement will be reached. They look for some concession from the operators and are prepared to meet them halfway.

The entire hard coal industry remains as completely tied up as it was last week. None of the coal companies expect to make a move until after the conference of Wednesday.

Ottawa, April 8.—A sudden drop in temperature about midnight last night has probably averted a disastrous flood along the Rideau River in the neighborhood of Ottawa. There is, of course, no danger of floods from the Ottawa river yet, as high water mark on this stream is never reached until late in May, when the northern waters come down. A heavy rain which set in early yesterday caused a rapid rise in the Rideau, and by nightfall there was a momentary danger of the Hog's Back dam, a few miles above the city, being carried away, with disastrous results to several settlements located along the river. Families got ready to move to safety at a moment's notice, but fortunately the rain ceased and a drop in temperature saved the day.
