SEMI-WEEKLY COLONIST

One year \$10.00, Six months \$6.00, Three months \$3.50. Best postage to Canada, United Kingdom and United States.

C. P. R. PLANS FOR THE ISLAND.

We are able to present to our readers this morning an outline of the plan of the Canadian Pacific Railway Company for the development of their land grant on Vancouver Island, and incidentally to assist in the development of the Island as a whole.

One particular condition favors this province at present, and its importance will continue to be emphasized as time goes on, and that is climate. This province peculiarly attracts the well-to-do farmer of the Middle West of America, who, with all the advantages that it possesses in the way of farming on a large and profitable scale, in the time of the year, and the demonstration of modern and cheap methods of bringing the land into cultivation for that purpose means such a stimulation of effort that the face of nature will be altered in a few years.

When the Canadian Pacific Railway Company took over the Esquimalt & Nanaimo railway and land grant, we remarked that a great many persons were looking for a transformation to ensue immediately. They saw a tree planted today and they looked for it to bear fruit tomorrow. Important changes and results are not brought about in that way, and the company have to expect to see everything mature in the course of the year or two.

The campaign of advertising which the company have in view is not the least important part of their programme. The C.P.R. has special facilities for giving the widest publicity to all its undertakings, and that it is so thoroughly identified with the interests of the Island of Vancouver we may expect to see those facilities brought into the fullest play to our advantage.

In reference to timber, the time is not opportune to make experiments with that hope of immediate success that might be otherwise possible. There is so much easily available timber on the coast and throughout the Interior, and the condition of the lumber industry has been so unsatisfactory for some time, that the use of portable sawmills in many localities does not offer the inducements that sooner or later will come when the demand for lumber is much greater than it is at present.

can be cleared and the timber products utilized for lumber or other purposes without the waste which burning up the logs implies. In other words, the timber on the land may be made to pay for the clearing, which otherwise might be too expensive to be undertaken.

What is possible there is possible here because conditions are almost identical. On the whole, the people of the city are to be heartily congratulated upon the efforts of the Canadian Pacific to put forth in the development of the land grant. It is purely a business proposition on the part of the company, but what results follow from their endeavors will react directly upon the property of this part of the province and directly upon the future of the whole of British Columbia.

PAVING THE PIPER.

The Sidney Herald complains that the government in Australia costs a great deal too much. Parliamentary government costs the Commonwealth and the States over half a million pounds sterling per annum, a considerable per centage of the total national income.

Mr. Joseph Martin, K. C., has written a letter to the News-Advertiser in which he has advised that he is not in favor of the proposed bill for the purpose of self-protection. The Gazette is a newspaper for the people, and it is not its duty to act as a censor.

MR. MARTIN AND THE LIEUTENANT-GOVERNOR.

The reported burning of New Metlakahla, Alaska, is a very serious matter. It is a violation of the laws of the province, and it is a disgrace to the province.

REV. WILLIAM DUNCAN.

The reported burning of New Metlakahla, Alaska, is a very serious matter. It is a violation of the laws of the province, and it is a disgrace to the province.

The reported burning of New Metlakahla, Alaska, is a very serious matter. It is a violation of the laws of the province, and it is a disgrace to the province.

The reported burning of New Metlakahla, Alaska, is a very serious matter. It is a violation of the laws of the province, and it is a disgrace to the province.

South African army supply scandals, reveals one of the most barefaced plots to defraud the government ever carried out in any country. At the close of the war, these men were on hand to feed 300,000 men and 200,000 horses for four months.

The anti-Japanese legislation. The Montreal Gazette, to judge from a geographic synopsis of its remarks, has taken the most liberal view of the proposed adoption of a Japanese exclusion law.

INTERNATIONAL GOOD FAITH.

It is regrettable that citizens of the State of Washington should think of the laws passed by their own legislature as the least to be regarded because they come into conflict with the laws of another country.

SEPARATION OF CHURCH AND STATE.

The long fight in France over the separation of church and state has come to an end. Late despatches of the month of June, which did not reach the Colonist in time to be printed, contain the details of the passage of the bill in the Chamber of Deputies.

DRINKING IN ENGLAND ON THE DECREASE.

A surprising change for the better is taking place in England, in the decrease of drinking. In the course of the last year the consumption of alcohol has decreased by 10 per cent.

GALTSBOROUGH COLLEGE.

Preparatory School for Boys and Girls. 82 MENZIES ST., VICTORIA, B. C.

CORRIG COLLEGE.

Beacon Hill Park, VICTORIA, B. C. Select High-Class Boarding School for Boys of 8 to 15 years. Business Life or Professional or University Examinations.
