The thirty per cent. duty on bicycles has had the effect of forcing the manufactur- ing of the machines to be done in this country or at least the greater part of it. Every year the importation of bicycles becomes less and less, and be- fore long we expect to see the importa- tion reduced to a minimum. Since The World the other day called atten- tion to the fact that no tubing fac- tory existed in Canada, although there are a dozen of them in Eng- land and five or six in the United States, we are glad to know that it is the intention of a firm at West Toronto Junction to estab- lish a tube factory in connection with their bicycle works. The National Policy has not only acclimatized the	our profit by giving away half of it. Then there is the good-will of the people. Every time one of these dolls or toys goes into a home, it is a stand- ing advertisement for us, and after all business is not entirely made up of dol- lars and cents; we are living as well for the comfort and good-will and the little sentiment of life. If we can make a few thousand children happler by giving these little Christmas mementoes with our shoes, why shouldn't we do it, especially when there's some profit in it in the increased quantity of shoes we sell and the popu- larity of the store." The writer was wondering all the time what the toy-dealers were going to do if Guinane Bros. gave away those immense piles of dolls and toys which he saw. For assuredly if people can get them for no- thing with their shoes, they need not pay out money to buy them from the toy stores for Christmas. Was Carrying Too Much Time. The thirty per cent. duty on bicycles has had the effect of forcing the manufactur- ing of the machines to be done in this country or at least the greater part of it. Every year the importation of bicycles becomes less and less, and be- fore long we expect to see the importa- tion reduced to a minimum. Since The World the other day called atten- tion to the fact that no tubing fac- tory existed in Canada, although there are a dozen of them in Eng- land and five or six in the United States, we are glad to know that it is the intention of a firm at West Toronto Junction to estab- lish a tube factory in connection with their bicycle works. The National Policy has not only acclimatized the great bicycle industry in Canada, but it has done so in a remarkable short period of time. The history of bicycle making in this country does not date back more than two or three years. Al- though we are making the biggest part of the machines sold in the country, and it will not be long before it will	our profit by giving away half of it. Then there is the good-will of the people. Every time one of these dolls or toys goes into a home, it is a stand- ing advertisement for us, and after all business is not entirely made up of dol- lars and cents; we are living as well for the comfort and good-will and the little sentiment of life. If we can make a few thousand children happier by giving these little Christmas mementoes with our shoes, why shouldn't we do it, especially when there's some profit in it in the increased quantity of shoes we sell and the popu- larity of the store." The writter was wondering all the time what the toy-dealers were going to do if Guinane Bros. gave away those immense piles of dolls and toys which he saw. By popularizing the English language we will help to ex- tend the influence of the Empire, in- crease its trade and hurry on the day when English will become the clear- ing-house language of the world and occupy the place that the artificial Volapuk failed to fill. <b>SCORE ANOTHER FOR THE N.P.</b> The only part of the bicycle that is not manufactured in Canada is the tubing out of which the frame of the machine is constructed. The thirty per cent. duty on bicycles has had the effect of forcing the manufactur- ing of the machines to be done in this country or at least the greater part of it. Every year the importation of bicycles becomes less and less, and be- fore long we expect to see the importa- tion reduced to a minimum. Since The World the other day called atten- tion to the fact that no tubing fac- tory existed in Canada, although there are a dozen of them in Eng- land and five or six in the United States, we are glad to know that it is the intention of a firm at West Toronto Junction to estab- lish a tube factory in connection with their bicycle works. The National Policy has not only acclimatized the great bicycle industry in Canada, but it has done so in a remarkable short period of time. The history of bicycle making in this country does not date back more than two or three years. Al- though we are making the biggest part of the machines sold in the country, and it will not be long before it will be as rare for a Canadian to buy a foreign bicycle as it is for him to buy a foreign-made carriage or sleigh.	our profit by giving away half of it. Then there is the good-will of the people. Every time one of these dolls or toys goes into a home, it is a stand- ing advertisement for us, and after all business is not entirely made up of dol- lars and cents; we are living as well for the comfort and good-will and the little sentiment of life. If we can make a few thousand children happier by giving these little Christmas mementoes with our shoes, why shouldn't we do it, especially when there's some profit in it in the increased quantity of shoes we sell and the popu- larity of the store." The writter was wondering all the time what the toy-dealers were going to do if Guinane Bros, gave away those immense plies of dolls and toys which he saw. For assuredly if people can get them for no- thing with their shoes, they need not pay out money to buy them from the toy stores for Christmas. <b>Was Carrying Too Much Time.</b> Detective Black arrested Dan Sbeehan of 86 Pearl-street yesterday, on a charge of stealing a gold watch and chain fram Wal- ter Dorwaad af 68 Claremont-street. The thirty per cent. duty on bicycles has had the effect of forcing the manufactur- ing of the machines to be done in this country or at least the greater part of it. Every year the importa- tion reduced to a minimum. Since The World the other day called atten- tion to the fact that no tubing fac- tory existed in Canada, although there are a dozen of them in Eng- land and five or six in the United States, we are glad to know that it is the intention of a firm at West Toronto Junction to estab- lish a tube factory in connection with their bicycle industry in Canada, but it has done so in a remarkable short period of time. The history of bicycle making in this country does not date back more than two or three years. Al- though we are making the biggest part of the machines sold in the country, and it will not be long before it will be as rare for a Canadian to buy a foreign-made carriage or sleigh.	our profit by giving away half of it. Then there is the good-will of the people. Every time one of these dolls or toys goes into a home, it is a stand- ing advertisement for us, and after all business is not entirely made up of dol- lars and cents; we are living as well for the confort and good-will and the little sentiment of life. If we can make a few thousand childreh happler by giving these little Christmas mementoes with our shoes, why shouldn't we do it, especially when there's some profit in it in the increased quantity of shoes we sell and the popu- larity of the store." The writer was wondering all the time what the toy-dealers were going to do if Guinane Bros, gave away those immense piles of dolls and toys which he saw. For assuredly if people can get them for no- thing with their shoes, they need not pay out money to buy them from the toy stores for Christmas. <b>Was Carrying Too Much Time.</b> Detective Black arrested Dan Sheehan of 98 Fearl-street yesterday, on a charge of stealing a gold watch and chain fram Wal- ter Dorwand af 68 Claremont-street. Dor- ward claims that he was robbed of his valu- ables on York-street on Saturday night. He had partaken freely of intoxicants and had for a time sojaurned at the Green Bush Restaurant, afterwards departing with two colored women. Same one relieved him of his watch, and it is said that Sheehan is the guilty party. The ticker was faund in a pawnshop. <u>Personal.</u> i Mr. R. A. Campbell, M. L. A., of South Renfaew, was in town yesterday and visited the Crown Lands Department. Hon. A. S. Hardyileaves for Brantford to- day to attend the annual banquet of the Sons of E-gland. <u>J</u> The Wangh-Ferguson Nuptials. At the residence af Hon. G. W. Ross, 101 Gloucester-street, yesterday afternoon, Miss Natie Ferguson, a cousin of Mr. Ross, was married to Mr. David Waugh of Detroit. The wedding was a private one, only the members of the family being present. Rev. Mr. Nell of the Bioor-street Presbyterian Church performed the ceremony, and Mr. Ross gave away the brids. The hap	next week, represents the river land- ing-place of one of Siam's least known towns. This is Pechaburi, one hundred miles southeast of Bankok. Although the King has a summer place there and the place will some day be famous as a sanitarium for Europeans, yet its present obscurity made it a matter of great difficulty to obtain accurate da- ta upon which to construct the scen- ery for "Wang." This scenery will be used in all its entirety during the pro- duction next week. <b>To-Night's Charity Entertainment.</b> The promenade musicale, under the auspices of the John Eaton Company, annunced for to-night at the Pavilion, gives promise of being a very enjoy- able, as well as novel, affair. The ad- mission has been placed at the low figure of 13 cents, two for a quarter, and only 2000 tickets will be sold. The Queen's Own Band and a competent cor pany of entertainers will furnish the amusements and refreshments will be devoted to the charitable institu- tions of the city. There was a large sale of seats yes- terday for the Melba grand concert which takes place on Monday in the Massey Hall. There are some good seats still to be had. <b>The Industrial Schools.</b> A meeting of the Board of the Industrial Schools Association was held yesterday afternaon in the rooms of the association, 32 Church-street. The clause of the repart of the sub-committes recommending that the Ontario Government be asked to take over the Victoria School and establish it on a thoroughly provincial basis [was discussed at some length and was finally struck out of the report. A report bearing on the discipline of the school and suggesting several changes and impravements wastaken up clause by clause.
