itself in the three southern townships of Lambton County and has already appeared as far north as the Sixth line of Plympton. It may be recognized as a small dark pimple on the branch, dark in color and carrying a small depression in the top. Sometimes it may be so small that it will not be recognized with the naked eye. On the fruit it appears as a dark speck, surrounded by a pink or crimson circle. Under this scale is a small insect which reproduces so rapidly that in many cases it will kill a tree in two or three years.

no scale may remain untouched by the spray. Thoroughness is absolutely necessary to be effective and the insect may be controlled in this way. The difficulty in identifying this insect, and the danger of future attacks of Little Peach and Yellows and other diseases, which are equally destructive to peach plantations, demand that a man in each locality should become acquainted with the different insects and diseases and devote a little time each season to inspection work. spection work.

TOWNSHIP INSPECTOR A Township Inspector, whose salary is paid equally by the Township and the Government, will be appointed by the Township Council upon the request of Fifteen fruit growers. We are waging a war-like campaign against the scale in the south of the County but our success depends upon the assistance rendered by the owners themselves. The fruit growers of Lambton have enjoyed considerable freedom from such attacks but it becomes plainly evident that immunity from injurious insects and fungous om injurious insects and fungous seases is at an end and every farmer should be prepared to meet these new

## **NEW STRENGTH** IN THE SPRING

Nature Needs Aid in Making New Health-giving Blood

In the spring the system needs a tonic. In the spring the system needs a tonic. To be healthy you must have new blood just as the trees must have new sap to renew their vitality. Nature demands it, and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp-stabbing pains of neuralgia. Often there are disfiguring pimples or eruptions on the skin. In other cases there is merely a feeling of tircdness and a variable appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality.

appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What you need in spring is a tonic medicine to put you right, and in all the world of medicine there is no tonic can equal Dr. Williams' Pink Pills. These pills actually make new, rich blood—your greatest need in spring. This new blood drives out the seeds of disease and makes easily tired men, women and children bright, active and strong.

Mr. John Walfield, La Have Islands, N. S., writes:—"I take great pleasure in telling what Dr. Williams' Pink Pills have done for me. I am a fisherman and fifteen years ago through hard work my system became run down and I could scarcely work at all. I lost in weight; my blood became poor, and I was very weak. I consulted several doctors but their treatment did not help me so I decided to try Dr. Williams' Pink Pills and in a short time I was entirely well again. My wife and daughter also used them with benefit. We think so much of the Pills as a family medicine that we always keep them in the house."

These Pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### EASTER VESTRIES

TRINITY CHURCH, WATFORD.

The pioneers of Lambton County were thoughtful and industrious enough to plant shrubs and fruit trees to decorate their homes and fruit trees to decorate their homes and furnish their table with fruit. Have their sons been diligent in preserving this heritage by executing the care which modern circumstances demand?

SAN JOSE SCALE

An insect fatal to fruit trees and berry bushes is gradually working northward, leaving, in its wake, ruined orchards and sickened plantations. It has established itself in the three southern townships of Lambton County and has already appeared as far north as the Sixth line of Plympton. It may be recognized as a small dark pimple on the branch, dark in color and carrying a small depression in the top. Sometimes it may be so TRINITY CHURCH, WATFORD. are the auditors. Meeting adi

small that it will not be recognized with the naked eye. On the fruit it appears as a dark speck, surrounded by a pink or crimson circle. Under this scale is a small insect which reproduces so rapidly that in many cases it will kill a tree in two or three years.

REMEDY

Cut out and trum all dead and un necessary branches. Before the buds begin to burst, spray with Lime Sulphur solution, about 1 to 7, when using the commercial concentrated material, taking care to cover every branch or twig, that CHRIST CHURCH, SUTORVILLE

organized to the time of his death. organized to the time of his death. The officers for the coming year are :—Thos. H. Lucas, rector's warden; John Saunders, people's warden; the sidesmen, Rich. Lucas, Rich. Williamson, Thomas Kidd and Clark Taylor; vestry clerk, John Davis; Lay Delegate to Synod, John Saunders; substitute delegate, Rich.

ST. JAMES' CHURCH, BROOKE The annual vestry meeting of this church was adjourned on account of the wet weather on Easter Monday, to Tuesday evening, April 8th, at 8 o'clock.

Jr. I.—Leola Shamblaw 177, Dalton Morgan 135. A—Harry Johnson, Clayton Morgan, Fred Dymond, Aimee Campbell.—L. K. Mc-KELLAR, Teacher.

#### Teachers' Salaries Increase.

In the report of the Minister of Edn-

In the report of the Minister of Edu-cation for the year 1912 an optimistic tone is taken towards teacher's salaries, and the Minister records gratifying in-creases in salary schedules

It is noted that the average salary paid to men teachers in the elementary schools during the year was \$767, and to women teachers \$518, an increase of \$56 and \$35 over the previous year's figures.

There are 868 teachers in training at present in normal schools, and although the outlook is promising, rural districts-will have to resort to special inducements to get certificated teachers.

The Frank street Methodist church, Strathroy, has been torn down. For some time it has been used as an upholstering factory. It was built in 1874 and went out of use as a place of worshipwhen the Methodists amalgamated in 1901.
