In Bridgetown, nine room house, finished complete with piazza. Barn 28 x 38, wagon house and outbuildings. Half acre of land with about 100 trees, apple, pear, plum.

Will be sold cheap, on easy terms, or will exchange for farm.

W. AYARD MARSHALL, Bridgetown, July 17th, 1907.

Bar River

Rev. A. C. and Mrs. Archibald returned here from Wolfville on Monday. Howard Snell left for Boston last Saturday.

Miss Stella Kea returned to Boston last Saturday.

Mr. and Mrs. Frank W. Nichols, of Digby, were in town on Wednesday.

Fred Benson, who has been visiting his parents, returned to Boston last Saturday.

John Baxter, of Karsdale, Annapolis County, is visiting his daughter, Mrs. Captain J. E. Woodworth.

Roy D. Miller and Alice B. Clarke left on Monday for Wolfville, to resume their studies at Acadia College.

Miss L. Myrtle Miller, who has been spending her vacation with relatives here, returned to Boston Monday.

Mrs. (Capt.) R. J. Anthony is visiting relatives and friends in Annapolis.

Wallie Graham, who has been laboring in the western grain fields, returned home Monday.

Mrs. (Capt.) J. DeLap went to Lower Granville last Saturday on a few days visit.

Burton D. Harris, who has been spending a few weeks with his parents Mr. and Mrs. J. Byron Harris, left for Boston Tuesday.

T. H. Miller left for Yarmouth Tuesday to visit his son, Dr. Vernon, at Tusket, and take in the exhibition as well.

A. B. Marshall and R. H. Purdy left last Saturday to swell the number of moose hunters now camping in the south woods.

W. A. Purdy, Esq., spent a few days with his family here the past week, returning to Annapolis Wednesday.

Mrs. C. B. Henderson, of Yarmouth, and Mrs. E. Ellis, of Port Maitland, who were on their way home from the Halifax Exhibition, spent a few days here the guests of Mrs. R. A. Harris.

Master Charles Brothers have begun operations on a new building next to the U. S. Bank. The work is in charge of I. J. Dunn.

We were unable to get a complete list of those from here who took in the exhibition at Yarmouth this week, but among the number who attended were the following: Mr. and Mrs. Bernard Parker, Mr. and Mrs. Stephen Brown, Mrs. G. I. Brooks, J. V. Harris, Harry Anthony and others.

Although the weather has been very unfavorable for the moose hunters, we have heard of five being brought out so far. Among the successful ones are: that of Capt. L. Lander, Marjorie Zwicker, James and Charles Morgan, Mr. Torrie, Digby, Charles E. Miller and S. B. Davies.

On Tuesday a very wet rainstorm accompanied by a terrific gale raged here all day, much damage being done to the apple crop. Trees were uprooted, fences blown down, etc. Many of the farmers complain of being unable to get their crops out of the ground on account of so much wet weather.

James O'Brien, of State Street, Boston, made us a friendly call the latter part of last week. He is on a short vacation, accompanied by his uncle, James Muldoon, also of Boston. They spent Sunday with his uncle, John O'Brien. Jim has grown some in weight since he left here for Uncle Sam's domain and he now tips the scales at 220 pounds.

A shocking occurrence took place last night at the house of William Aronburg, at Hebb's Cross. A party of men were there drinking heavily. James E. Hebb, eldest son of Elias Hebb, was one of the number and, being intoxicated, he took another drink in spite of the expostulations of some of those present and immediately fell to the floor. Dr. Stewart was telephoned for, and on arriving at the scene, found young Hebb dead and he had been so for three hours. Coroner March was summoned and he is now investigating the case. —Bridgewater Bulletin.

DIGBY COUNTY EXHIBITION TO BE HELD AT BEAR RIVER ON THE 16TH INSTANT.

The management have completed the final arrangements to conduct said exhibition. That is to say, Prof. Cummings, of Truro, will open said exhibition at 10 o'clock in the morning. It will continue through the afternoon and evening. The entertainment of the evening will consist of a speech from the Secretary of Agriculture for the province, and also a sermon. And there will be rendered both vocal and instrumental music by the combined choirs of the several churches. This entertainment will certainly be both profitable and interesting. We have information from the management of the travelling dairy that it will reach Bear River on the 16th and there will be a free exhibition given on the following day. It is to be hoped that all our agricultural friends interested in good butter making will avail themselves of this privilege of taking a lesson in butter making from one who is thoroughly competent, both to manufacture the butter and to speak clearly on all points in connection with good butter making.

J. V. THOMAS.

The Hillsburgh Agricultural Society are to be congratulated upon the improvements they have made. During the past few days on the grounds surrounding the exhibition building, the committee have spared no pains or labor to have everything in first class shape, both inside and outside the building, so that exhibitors will have no fault to find with the accommodations supplied for their exhibits. The prospects look good for it and it is expected that this will be one of the best, if not the best, exhibitions ever held in the county. And every farmer in the surrounding country would take the interest they should in this, their own Fair, there is no reason why these expectations should not be fully realized. There are only a few days left in which to think this matter over, and it is the duty as well as the privilege of each and every one who has anything to contribute towards making this affair a complete success to be up and doing. Of course it is a costly exhibition, but it will not do to depend too much upon outside help on account of the difficulty of transportation of exhibits. Being a great drawback to those who are at a distance, so you who are within easy reach, should not be influenced by the amount of prize money you are to get but should put forth an extra effort, keeping this in mind that this is my affair (not leaving it for the Society alone) and I must do all I can to make it a success, and if this idea is followed out there will be no cause for complaint from either exhibitor or visitor.—Telephone.

ACCIDENT TO BARNT. ETHEL CLARKE.

The barnt. Ethel Clarke, lumber laden, met with a very bad accident while dropping through the bridges on last Saturday. After passing through the traffic bridge, her stern was jammed and her stern swung on the bank on the west side, near the railway bridge. It being eb tide all efforts to pull her off proved useless, and, as the tide receded, her bow settled down, leaving her stern high up on the rocks. Her stern post was broken and a piece of her keel ground off. She was hauled off on the next flood tide and towed to Peck's Hole, where she discharges her deckload, after which she will be towed up here to discharge balance of cargo, and go on the marine blocks for repairs. It seems too bad that better facilities for dropping through these bridges cannot be procured. A good dropping pier is much needed at that part of the river, between the two bridges, as this is not the first vessel that has come to grief at that same spot in about the same way. Surely the amount of shipping done at this port each year demands the notice of the powers that be to provide safer and better means of getting through the bridges at the mouth of Bear River.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else. At least, says Dr. Shoop, and it proves it he has created a little pink tablet, that he calls Dr. Shoop's Headache Tablets. These little tablets remove pain from pain centers, discharging poisonous elements gently through the blood, thereby equalizing the blood circulation, have a headache, it's blood pressure. It's painful periods with women, same cause. If you have a headache, Dr. Shoop's Headache Tablets in 20 minutes, and the tablets simply distribute the natural blood pressure. That surely is a relief, isn't it? Of course it does. If you have a headache, you'll find it white pain always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

ROYAL PHARMACY.

Communication on the Bear River Railway

To the Editor of the Telephone:—

Bear Sir,—Since my last communication circulated in the columns of your valuable paper I have been acquired of by a number of citizens and friends in regard to our contemplated railway scheme. I may say that I am now in possession of valuable information that certainly will encourage those who are deeply interested in the promotion of railway communication.

I learn through the esteemed secretary of our railway company that the time has been fixed for the 15th of October for our most esteemed deputy crown land surveyor to hold himself in readiness to assist the district Engineer to put on the survey between Caledonia Corner, Queens County and the D. A. R. via Bear River. Surely this information will assist the craze to change his mind, and join the more progressive party, and assist in moving the wheels of progress of the age in which we now live. The time has arrived when all progressive people are deeply interested in railway communication, more so than at any other period in the history of the town and surrounding country, and are anxiously looking forward to the time when we shall enjoy new and better modes of transportation. As further developments take place, I shall endeavor to keep the readers of your valuable paper advised with regard to the matter.

I remain,

JOHN V. THOMAS.

The Apple Market.

Reports from the apple growers in the Valley say that this year not only in quantity but in quality, this year's crop will be ahead of that for seven years and the prices are also good. One season for this is that formerly the only market for Nova Scotia apples was the English, but now they are in demand in South Africa and the United States, who send their buyers into the Valley to purchase varieties as Kings, Blenheim, and Gravensteins. Last year 1000 barrels went to South Africa and they were so acceptable that South Africa has sent agents here to buy and pack for them on the spot. The American buyers are also in evidence, having been here for some time past. Winter apples by the carload were sold lately for \$3 to \$3.25 f. o. b., 1000 barrels of choice winter apples were sold to an American buyer for \$3.25 f. o. b. Another lot of 500 barrels of "Spies" brought \$3.50 f. o. b. cars. Gravensteins here are bringing for \$3.10 according to quality. No. 2 from \$2.00 to \$2.50. All other varieties net from \$1.50 to \$3 per barrel.—Halifax Chronicle.

Government to Employ the Doctors.

London, Oct. 2.—The change the practice of medicine is undergoing was the keynote of several addresses made by leading London doctors at the medical schools connected with the opening of the winter session of the London hospitals.

The speakers said the day was coming when the doctors in private practice would disappear and be replaced by the public health officers, which work would lie in the prevention rather than in the cure of disease.

Dr. Fowler told the students that the profession was in the throes of a double crisis, economical and professional.

He declared that the growing success in reducing the prevalence of disease and the growth of specialism had contracted the field of general practice and the process was bound to continue.

He said it was inevitable that the profession should become more and more the servant of the state. Hence forth its members must devote themselves to the culture of health, preventing instead of curing disease.

MORGANVILLE.

Mr. and Mrs. Peleg Trites are visiting their parents at Northfield, Queens County.

Michael Harris returned from Dorchester, Mass., on Saturday last.

Henry Porter and bride, of Manchester, Mass., spent Monday at Vessie Porter's.

Mrs. George Curtis, of Bear River, spent Sunday with Mrs. Charles Smith.

Mr. Porter returned home on Monday, after spending a few weeks with his son, Jesse Porter.

Heber McNeil, of North "Range" made a short visit at Charles Harris'. J. H. Berry is improving his residence by a verandah.

Use A Blended Flour

(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality. Look for it on every bag and barrel you buy.
