Chicago, Feb. 23-Vindication has come to Rev. Charles Burdette of Springfield, Mass, a brother of Bob Burdette, the humorist, after thirty of silent suffering during which he has rested a cloud.

When Mr. Burdette was a registry clerk thirty years ago in the post office at Peoria, Ill., a number of registered letters, containing \$3,500, disappeared. Although no formal charge was made against the clerk, only the faith of the postmaster, Gen. D. W. Magee, a civil war veteran, prevented his leaving the service with a stigma on his name. Unable to live down the suspicion, he entered the

tween the heavy manila envelope containing the \$3,500 that had disappeared so mysteriously from Peoria

thirty years ago.

This he pieced at the bottom of sub-lances

# PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body-bowels kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes: "For some time I had been in a low.

depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice and they are At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

When the railway mail clerk empty of the did the contents of the mail bag on his distributing table the registered pokkage could not be found, and this clerk refused to sign the receipt for it in Burdette's registry choler. Whence we have the teems the good woman, and bustled out rgain. Elizabeth Jane went to the door, and looked out over the hills. How kind of the Lord to send me such a lovely day it too much He'll send His chariot for when your ship comes in, and you come out,' he cred gaily. It

he had been robbed. He demanded croises are good for us, lecause they further mention of the charges against him, although it was understood at the time, that he had been retained only through the influence of Gen. Magee.

The charges approduction both of bile and of sugar.

Hence, if it is more violent than that to which one is accustomed, more bile But the suspicion against Burdette and sugar may be formed than can be popular parlance a "billious attack."

It is a fact, supported by the highest prayed that he might be cleared of a authority, that a moderate exercise, such charge of which he was innocent. as walking, is a great aid to digestion While he did not allow the cloud of (to run would retard it); in other words, unjust suspicion that hung over him to embitter his life he could not you will digest your dinner better if you banish it and so has kept away from Peoria and his old acquaint-Now, after thirty years, the old mail bag, which has travelled hun-

> But suppose you are already corpulent, will walking after meals, in that case, make you stouter! No. Paradoxical as the statement may sound, walking will in that case make you thinner. Fat a very unstable compound, and when t is present in excess more of it is destroyed by the increased amount of oxgen in the blood-due to the exercise than is deposited by the blood; while, on the other hand, when adipose tissue is deficient, the exygen-bearing blood, which also carries fatty particles, dcposits more fat than it can destroy, and

Walking, then, in the open air is an cereise par excellence for everybody. It shakes up the liver just enough to keep it in good working order, it enriches the blood by increasing its amount of oxygen, thus favoring the destruction and elimination from the system of poisonous waste products, particularly by the ungs, skin and kidneys, and finally by timulating activity of nutrition in the muscles it tends to prevent the deposi-

thus the thin subject grows heavier.

### The fassing of Elizabeth Jane A. TRUE STORY.

(By Sarah Robert.)

Elizobeth Jane looked round her disnantled home; it seemed to her sac heart that its bare walls stared unpityingly at her and she turned from them with a sigh to look into the fire which still burnt cheerfully on the hearth, denuded though it was of fireirons fender. She went into the little garden at the back of the cottage and returned with a rustic stool which she placed on the floor just where her arm chair used to stand, and sitting down upon it leant back against the wall. To-day she had sold the last of the goods—she had very last, but a neighbor had just given her five shillings for them. Three and sixpence was already wrapped in a screw f paper awaiting the knock of the rent ollector, Sixpence had gone in coal for a last warm, and the remaining shilling she intended for the kindly woman who would shortly bring her last meal before she started for the three mile walk
