## H. SHOREY and CO., CLOTHIERS,

1866, 1868 and 1870 Notre Dame and 36, 38, 40 and 42 St. Henry St., MONTREAL.

### He was from Havana.

He wore a Panama hat and carried a white umbrella, and before he came to Canada he never smoked anything but Havana Cigars. He's changed his mind now. He smokes Tasse, Wood & Co.'s Montreal cigars. He finds they are made better, and he can't see why he should pay duty on any inferior article.

### WALKER HOUSE.

Stones, Mantle Pieces, Grates, Etc.** Special designs fur-  
nished on application. Corner Bannatyne and Albert  
streets, Winnipeg.

### FRED.

Ground oat and barley feed is offering in broken lots at \$16 per ton, though some choice is held higher.

### MEALS.

There is no further change in oatmeal. The eastern markets are firm. Local wholesale prices for broken lots are \$2.45 to \$2.50 per 100 lbs for standard, and granulated at \$2.55 to \$2.60. Rolled oats, per sack, \$2.55 to \$2.60. Round lots about 25c. lower. Oil cake, in bags, \$20 per ton; oil cake meal, \$23 per ton, these prices for fine ton lots; cornmeal is held at \$1.95 to \$2 per 100 pounds. Pot barley, \$2.75 per 100 pounds. Pearl barley, \$3; fine, do., in 50 pound sacks, \$3 per sack. Split peas, \$2.40 to \$2.50, per 100 pounds. Beans, \$1.90 to \$2 per bushel.

### OATS.

There is still very little shipping business being done in oats. Prices to farmers in Manitoba country markets range from 17 to 22c per bushel of 34 pounds. These quotations do not leave much margin for shipping business. Prices have been firmer in the Winnipeg market, for local consumption. From 23c to 25c per bushel was paid for farmers' offerings in this market, and it was reported that 26c was paid for a few loads. The quantity coming in is only about equal to the consumptive demand.

### BARLEY.

There is nothing to speak of doing in this grain. Prices to farmers in Manitoba country markets range from 20 to 25c per bushel of 48 pounds, and in the Winnipeg market, the range is from about 25c to 30c, with a very limited quantity offering.

### BUTTER.

Prices are firm, but without change. There is no shipping doing, and the local jobbing trade is very light, as city dealers have not worked off stocks purchased direct from farmers in the fall. Medium quality, such as taken by lumber camps, etc., is quotable at about 16 to 18c, and choice to selected dairy at 18 to 22c. Creamery selling in a small way locally at 25c, with a higher tendency. Stocks held in the city of choice to fancy dairy are not large, but a considerable quantity of low grade stuff could be had. There is probably considerable butter held in country stores, but dealers are afraid to touch large lots held in the country, as they fear it may be off quality from being held too long.

### CHEESE.

Cheese markets in the east are closing for the season at very strong and higher prices, long prices having been paid at Ontario points, for the tail ends of the season's make. In this market a sale by a factory is reported to have been made at 10c, and it is said that a round lot was offered at 9½c. Dealers have their stocks laid in for the season, and any factories still holding, find it hard to make sales. The cold weather is also against shipping business. Dealers are selling in a small jobbing way at 10½c. Small cheese of fine quality are firmer, at 11 to 11½c.

### EGGS.

The egg market is about the same as last week. Fresh are practically out of the market. The best limed stock sells at 20c in a small way.

### CURED MEATS.

Local packers are placing new curing on the market. Prices are: Dry salt long clear bacon, 10c; smoked long clear, 10½c. to 11c; spiced rolls, 11½c; breakfast bacon, 13c; smoked hams, 14c; mess pork \$16 to \$18 per barrel. Sausage are quoted: Fresh pork sausage, 10c per pound; Bologna, sausage, 8c per pound; German, sausage, 8c per pound. Ham, chicken and tongue sausage, 9c per ½ lb package.

### LARD.

Compound unchanged at \$1.35 to \$1.90 per pail. Pure at \$2.40 per 20 lb pail.

### POULTRY AND GAME.

Arrivals of poultry have not been large, but are about equal to the demand. It is expected
