Kasagra Is Always Dependable

Physicians who prescribed Kasagra twenty years ago are still prescribing it. Could you ask a better recommendation?

Try Kasagra in small, well diluted doses in your Cough, Stomachic, Rheumatic, Tonic and other mixtures. The small dose does the work.

Frederick Stearns and Company WINDSOR, ONT. DETROIT, MICH

STEARNS' CASCARA AROMATIC. (Est. Case. Sag. Fl. Aromat. Stearns')

A FLUID EXTRACT OF PRIME CASCARA SADRADA AROMATIZED AND SWEETENED, THUS BEINO RENDERED EXTREMELY PALATABLE.

DOSE.—The best results are obtained by administering "Kasagra" is small doses (15 to 60 minims according to whether tonic or laxative effects are desired) well diluted with water, four times a day, half an hour before each meal, and again at bedtime.

GENERAL PROPERTIES.

The extreme and persistently bitter taste of the bark in its natural state has been a great bar to its use in the fluid extract form. With a view of overcoming this disadvantage without sacrificing its valued laxative properties, experiments were undertaken, which resulted in the devising of this preparation in 1889. It produces its characteristic action without griping.
