COMMERCIAL SUMMARY.

The business of Lightbound, Ralston & Co., wholesale grocers, Montreal, will be wound up.

Horsefly Hydraulic company stock is quoted at \$25, making the total value of the property \$1,500,000.

The willingness of a grocer, when he has competition, to oblige all customers, is sometimes almost pathetic.

The yield of French prunes will be considerably short of last year. A shortage of 25 or 50 per cent. of last season's output is advised.

The Densmore typewriter has just been awarded the contract for furnishing the government with machines at the headquarters department of the Platte. This award was made in the face of stubborn opposition on the part of all other companies manufacturing typewriters.—Nebraska Trade Journal.

The banks of the United States during the year 1894 lost over \$25,000,000 by theft.

Owners of bees in Surrey municipality report an unusually favorable season for honey, and large supplies already stored.

All is well as long as the sun shines and the fair breath of Heaven gently wafts us to our own purpose; but if you will try the excellency and feel the work of faith, place the man in a persecution.

A peep at the hotbeds of the Mission tobacco culturists discloses the fact that the plants are well under way and ready to set out in the field about the 1st of June. So far the recent frosts have been kept from damaging the young plants, and the prospect for a good crop are favorable.—Midway Advance.

The organization of the new Manitoba fire insurance company has been completed with the following directors.

PEACE IN THE ORIENT.

Final terms of peace between Japan and China were ratified on the 8th of this month. Now look out for an industrial war, with those two cheap labor countries against the field! With skill, ample capital, territory and 400,000,000 people, China and Japan could soon cause every other country in the world to build a tariff wall round it higher than any yet known. Their opportunity has come. Will they embrace it?—California Fruit Grower.
