

DR. M'LANE'S Celebrated American WORM SPECIFIC, or VERMIFUGE.

SYMPTOMS OF WORMS. THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; feces very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy; not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccup; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

DR. M'LANE'S VERMIFUGE Will certainly effect a cure. Its universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN THE MONEY in every instance where it should prove ineffectual: "providing the symptoms at tending the sickness of the child or adult should warrant the supposition of worms being the cause." In all cases the Medicine to be given in STRICT ACCORDANCE WITH THE DIRECTIONS. We pledge ourselves to the public, that Dr. M'Lane's Vermifuge DOES NOT CONTAIN MERCURY in any form; and that it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.
