ALEXANDRIA, June 11 .- Mr. Cookson, the English Consul, says that yesterday, when he was proceeding from the Great Square to the Governor's residence, he saw two Europeans, respectably dressed and apparently naval officers in plain clothes, knocked down: A Greek was shot and killed by a soldier five yards from Cookson's carriage. Others who were even closer were knocked down and stabbed. A soldier cut at the consular khavass with a sword. The carriage of the Greek Consul was stopped by a number of soldiers, the occupants dragged out and the Consul severely beaten. Mr. Cookson escaped such severe maltreatment by his coachman dashing the horses, but he was struck on the head and one of his arms broken. The Italian Consul was wounded by a stone. The wife of the Austrian Consul-General was attacked and insulted. Ac-

DEATH OF ANGUS MORRISON, EX-M.P.

TORONTO, June 10.—Ex-Mayor Morrison was found dead this morning. Of late he had been suffering from an affection of the heart. When found at 9 o'clock his hand was placed over his heart, as if he had been suffering. Mr. Morrison was born in Edinburgh, January 20, 1824, and came to this country when only eight years old, in company with his father, Hugh Morrison, who was killed by an accident in the old Merket Square at a political meeting in 1836, Mr. Morrison was educated partly at Belfast, Ireland, and partly in Upper Canada College, Toronto, finishing his studies at a grammar school. In his younger days he was an athlete, taking much to rowing in which he was proficient. He won and held the championship of Toronto bay in 1840, 41 and 42, and at the time of his death possessed the trophies of his victories. He was President of the Toronto Bowing Club for fourteen years. Curling, shooting cricketing and kindred sports he excelled in, and was first secretary and afterwards president of the Toronto Curling Club. Discontinuing all connection with sporting matters, he devoted his time to the study of law in the office of Messrs. Blake & Morrison, and was called to the Bar in 1846. He entered upon a most successful practice and worked indefatigably. His business was a lucrative one, and he made considerable money. In 1853-4 he sat in the Council for St. James ward. In 1857 he represented North Simcoe in Pariament,
doing so until 1863, when he was
defeated. After being defeated he

The deceased was exceedingly popular with all classes in the community, and his sudden death is greatly regretted by the public at large.

You certainly deserve the com-mendation of all people who profess to be Christians for your unwavering trust in God's power when you shot the President, as I aincerely believe you did. MARY'S LAMB ON A NEW PRINCIPLE From the Burlington Hawkeye.

Mollio had a little ram as black as a rubber

The worthy deacon quickly let his anery passions rice, and gave it an unchristian kick between the sad brown eyes. This landed rummy in the nisle; the deacon followed fast, and raised his foot again:

clas! that first kick was his last. For Mr. Sheep walked slowly back, about a rod itis soid, and cre the deacon could re-

treat he stood him on his head. Then rushed they straightway for the door with curses long and loud, while rammy struck the hindmost man and shoved him through the crowd.

The minister bad often heard that kindness would subdue the fiercest beast. "Aha!" he said, "I'll try that game on you." And so he kindly, gently called; "Come,

rammy, rammy, ram; to see the folks abuse you so I grieved and sorry am." With kind and gentle words he came, from

that tall pulpit down, saying : "Rammy, rammy, 1am-best sheepy in the town." The ram quite dropped its humble air, and

rose from off his feet, and when the parson landed he was behind the hindmost seat. As he shot out the door and closed it with implicitly in God and his protecting care, a slam, he named a California town-I think

GREAT FLOODS IN BRITISH COLUMBIA

VICTORIA, B. C., June 10 .- There are the most disastrons ficods in the Frazer River Valley ever known in the Province. The warm weather has caused the snow on the mountains to melt. The river rose rapidly before the settlers had time to move all their effects. The fertile districts of Chilliwack 9th to 9 the settlers reach their holdings in boats. All the crops and bottom lands were destroyed yesterday. The Matequi Dyke gave way and the water covered the reclaimed prairie ruining the crops and eweeping away one hundred thousand dollars invested in the dyke in a few minutes. Steamers navigate where a few days ago were farms. On the line of the Yale Savons Bailway the river is 62 feet above the low water mark and waggon roads in some places are thirteen feet under water. Bridges have 28c to 32c; good to fine, 35c to 45c; finest, been swept away and railway works considerably damaged. The water is within ten feet of the famous Alexandria Suspension Bridge. #### COMMERCIAL. WEEKLY REVIEW -- WHOLESALE PRICES.

The elections are now so close that vary little else outside of politics is thought of or spoken about. In some lines there has been a large turn over of imported goods but as already stated most of our present imports —and they are very heavy—were sold to arrive much earlier in the season. A great deal of stuff is going forward to Western Canada, Manitoba, and the North Western States. Our exports are not large, the bulk consisting of lumber, live stock and phosphates. Grain, flour, cheese and butter, are in light offer so far as compared with the large number of steamships, prepared to take full cargoes to European parts. We still notice that ocean freights on Canadian exports are exceptionally low, while on imports they were barely so high at this period. While no extended review of the dry goods market is necessary it is satisfactory to notice greater activity in that important branch of trade brought about by preparations for the grand procession of Corpus Christi and by the preparations of such of our citizens who are about to leave the city for the summer months. Travellers in the interior with special lines in Fall dry goods are not doing extra well, owing to the election excitement. The purchase of large tracks of prairie land in the North West by the Duke of Manchester and others is confirmed, and all but \$2,000,000 of the available Canada Pacific bonds have been taken up. The annual reports of the leading banks which are now being submitted to the shareholders are most satisfactory. The yearly earnings of the Bank of Montreal, Merchants' Bank of Canada, Bank of Toronto and Quebec Bank Conada strong bakers', \$6 50 to 6 75; Ameriwere never larger. The money market continues easy and funds are louned on stocks and other safe securities at 5 per cent, call.

Boots and Suors .- There has been some falling off in Fall orders received from travellers, and which is said to be due to the political struggle now going on. Manufacturers, however, are not disposed to complain, as there is enough business awaiting despatch to keep their factories on full time.

MONTREAL CATTLE MARKET -- June 12. PRICES ON THE DECLINE.

To-day under heavier receipts the price of butchers' cattle declined 1 to 1c per lb. live weight. Good cattle sold at 61c to 61c which would have fetched 7c and 74c during the past fortnight. ### ANNIE.

Gone in the bloom of youth, Ere yet thy hear: was probed with mortal care, Ere earth's vile breath could taint thy spirit's Or rest its maxims there.

Gove as some fair flower. That bright with dew opes to the morning light, That at moon adorns the floral bower, But fades before the night

Fled with our fondest hopes, The longed for union at thy glad return, As, flushed with health, thy farewell words were spoke. That bade us not to morro.

Thou come again,—but how?
They bear thosen with muffled sighs and dread,
Cold thy fair form, and pale thy virgin brow,
O God, they bear thee dead!

Dark, hushed and sad our home, Its star is set; its brightest ray is fied. Its ties grow weak, its sweetest obarm is flown, Our best, our dearest dead.

Then darling, one fatewell,
Thy spirit wasted to a better sphere,
Will wast in death's screne and mystic spell,
Our final union there. St. Aincet, Que., May 24th, 1882
