## THE FLORENCE NIGHTINGALE OF THE NURSERY.

The following is an extract from a letter written by the Rev. C. Z. Weizer, to the *German Reformed Messenger*, at Chambersburg, Penn.:—

## A BENEFICENT.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our 'Susy' to say, 'A Blessing on Mrs. Winslow,' for helping her to survive and escape the griping, colicking and teething sieges. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform every part of it—nothing less. Away with your 'Cordial,' 'Paregoric,' 'Drops,' 'Laudanum,' and every other 'Narcotic,' by which the babe is dragged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her 'Soothing Syrup for Children Teething.' If we had the power we would make her, as she is, a physical saviour to the Infant Race. 25 cents a bottle. Sold by all Druggists.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP."

All others are base and dangerous imitations.

A PUBLIC BENEFIT.—Nothing can be of more importance to the welfare of our community, than the health of our children; on this depends the future of our national greatness, and, in a large measure, the enjoyment of our own lives. We therefore claim, that in Devins' Vegetable Worm Pastilles, we have a great public benefit, a remedy so safe, so reliable, and so agreeable, which gives health and strength to the weak and sickly child, brightens to the eye, bloom to the complexion, and plumpness to the form. But parents should be careful to procure the genuine Pastille on each one of which is stamped the word "Devins," all others are useless.

Prepared only by Devins & Bolton, Chemists, Montreal.

In one of Doctor Ayer's lectures he states that Chemistry confers more practical benefits on mankind, than any other science, yet from no other source could more be so easily obtained. The arts and economies which chemistry would teach, if more thoroughly and generally studied, would speedily exercise a most beneficial influence. He freely confesses that he is indebted to this science for the virtues of his remedies and advises that the practical application of chemistry to medicine, the arts, manufactures, and agriculture be enjoined upon our colleges and schools. ## Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative.

Pills. The obvious reason is, that it is a more reliable and far more effective remedy than any other. Those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always.

That it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Flatulency, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fever, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists.

One who feels tolerably well often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and were the virtues of this Pill as known, the public no longer doubt what to employ.

## Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping

Cough, Bronchitis, Asthma,

and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most efficient remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or to more than assure the public that its qualities are fully maintained.
