THE ELEMENTS OF ENGLISH GRAMMAR.

By Alfred S. West, M.A. Price, 50 cents.

"It is usually enough to announce the title and scope of a text book, and give an opinion upon the degree of success with which its purpose has been fulfilled. But now and again a work of this order is produced of such excellence as to place it almost in the domain of art. We have at hand an instance in kind in the shape of a Treatise on the English Language, by Alfred S. West, M.A., of Trinity College, Cambridge, and Fellow of University College, London, published under the title of 'The Elements of English Grammar,' in a neat and compact form, by The Copp, Clark Company, Toronto. The uncommon merit of the book lies beyond the thoroughness and clarity of its method of exposition or the grasp of the subject it displays, and consists in its charm of style, an allusiveness which excites to further study, breadth of treatment, and a really contagious enthusiasm. If it is not grammar made easy it is at least the study of that most important branch of knowledge made a delight."—*Critic*.

PUBLIC SCHOOL DOMESTIC SCIENCE

By Adelaide Hoodless, President School of Domestic Science, Hamilton. Price, 50 cents. As the education of primary importance is the one which relates to the laws of health, it therefore follows that a knowledge of food and its relation to the body—without which the body is absolutely helpless—together with the methods by which food is prepared, so as to secure its proper digestion and assimilation, should precede the more active physical training, such as gymnastics, club-swinging, etc. It is from this standpoint, and to enable pupils to acquire knowledge of primary importance, that the book, "Public School Domestic Science," has been published.

LITTLE FOLKS DRAWING BOOK

For Seat Work. Arranged by Miss B. Savage, Hamilton, Ont. No. 1. Little Folks' Drawing Book will, we believe, be welcomed by every progressive teacher of the primary grade. It is designed to furnish the children with *developing* and *educative* busy work while the teacher is occupied with another class, and will be found equally suitable for graded and ungraded schools. It will be found invaluable for its suggestiveness of other work of the same character as well as for the exercises actually contained in the book. It is logically arranged, and yet, if the teacher desires, a different sequence of forms may be followed as each form is completed before another is taken up. The book touches on these several points in form study—drawing from the object, drawing from copy, drawing from memory, cutting and pasting, drawing symmetrical designs and color work, which last always has a special charm for every child. It also gives ample opportunity and space for original work.

Size, 8 x 9 inches. 32 pages. Price, 5 cents.
