

(c) No Restricted Data will be exchanged pertaining to the design, construction and operation of production plants for the separation of isotopes of any other element, except as may be agreed.

(d) No Restricted Data will be exchanged pertaining to the underlying principles, theory, design, construction and operation of facilities, other than reactors, capable of producing significant quantities of isotopes by means of nuclear reactions, except as may be agreed.

E. Health and Safety

The entire field of health and safety is related to this Article. In addition, those problems of health and safety which affect the individual, his environment, and the civilian population as a whole and which arise from nuclear explosion (excluding such tests data as would permit the determination of the yield of any specific weapon or nuclear device and excluding any information relating to the design or fabrication of any weapon or nuclear device), and except as provided in Paragraph A.

F. Instruments, Instrumentation and Devices

Development, design, manufacture, and use of equipment and devices of use in connection with the subjects of agreed exchange of information provided in this Article, except as provided in Paragraph A.

ARTICLE III—Research Materials and Research Facilities

A. Research Materials

Materials of interest in connection with the subjects of agreed exchange of information as provided in Article II, and under the limitations set forth therein, including source materials, special nuclear materials, byproduct material, other radioisotopes, and stable isotopes, will be exchanged for research purposes in such quantities and under such terms and conditions as may be agreed, except as provided in Article VII, when such materials are not available commercially. These materials for non-research purposes may be supplied by one party of this Agreement to the other as provided in Article VI.

B. Research Facilities

Under such terms and conditions as may be agreed, and to the extent as may be agreed, specialized research facilities and reactor testing facilities will be made available for mutual use consistent with the limits of space, facilities, and personnel conveniently available, except that it is understood that the Commission will not be able to permit access by Canadian personnel to facilities which, in the opinion of the Commission, are primarily of military significance.

ARTICLE IV—Transfer of Equipment and Devices

With respect to the subjects of agreed exchange of information as provided in Article II, and under the limitations set forth therein, equipment
