

MINISTER OF HEALTH

Department of Health  
Ottawa, Ontario

REPORT ON THE  
ACTIVITY OF THE

Department of Health has been pleased to receive from the  
various provinces and territories a number of reports on the  
activity of their health services during the year 1967-68.  
These reports have been reviewed and summarized in this  
report. The information contained in this report is intended  
to provide a general overview of the health services  
provided in the various provinces and territories and to  
highlight certain trends and developments. The reports  
were prepared by the following provinces and territories:  
Alberta, British Columbia, Manitoba, Ontario, Quebec,  
Saskatchewan, and Yukon. The report on the activity of  
the health services of the Northwest Territories is  
being prepared and will be included in the next report.

The reports on the activity of the health services of the  
various provinces and territories are presented in the  
following order: Alberta, British Columbia, Manitoba,  
Ontario, Quebec, Saskatchewan, and Yukon. The report  
on the activity of the health services of the Northwest  
Territories is being prepared and will be included in  
the next report. The information contained in this  
report is intended to provide a general overview of the  
health services provided in the various provinces and  
territories and to highlight certain trends and  
developments. The reports were prepared by the  
following provinces and territories: Alberta, British  
Columbia, Manitoba, Ontario, Quebec, Saskatchewan,  
and Yukon.
