

HOUSE OF INDUSTRY.

THE QUEBEC JAIL ASSOCIATION, desirous of providing means of support and employment, and a place of shelter for discharged prisoners, especially females, who may have shown a disposition to return to habits of industry and good conduct; and desirous also of extending such an establishment to the more general object of supplying work and means of support (but at the least possible rate of subsistence) to the poor who are destitute of employment, and of thus gradually *putting down the practice of street begging*, and the waste of individual charity—earnestly recommend to the attention and support of their fellow citizens the following plan and subscription list, for a **HOUSE OF INDUSTRY.**

1st—A suitable House to be erected when sufficient funds are raised; probable cost £600. Persons subscribing £10 towards this object, to be Directors for life, with the privilege of filling vacancies among the inmates.

2d—Until such building be erected, a house to be hired, in which a Temporary Establishment, for the above-mentioned purposes, shall be forthwith commenced under the direction of persons to be named by the Subscribers.

Annual Subscriptions to any amount are solicited for this object, and for the maintenance of the Establishment, in the building which may be hereafter erected.

An Annual Subscription of £1 5s will entitle to a vote in the appointment of Directors and other Officers, and in the management of the Establishment.

3d—When a sufficient sum shall be subscribed to warrant the commencement of a building, or the opening of a Temporary Establishment, as above-mentioned, a meeting of the Subscribers will be called, to adopt further measures for carrying the object into effect.
