

A PIECE OF GOOD ADVICE.

It was through the efforts of the Winnipeg and Brandon Trades and Labor Councils, and the various trade unions in Winnipeg, that this Act was passed. A great deal of time was spent by the Trades and Labor Council and also by individual members of the unions throughout the city, and any benefit arising to the workmen of Manitoba has been owing to their efforts. Arrangements are being made whereby the secretary of each trade union will look after all the necessary details in connection with collecting claims for damages of members of his union.
