fires of his own ability; the optimist adds fuel to those fires. The pessimist links his mind to everything that is losing ground; the optimist lives, thinks and works with everything that is determined to press on. The pessimist places a damper on everything; the optimist gives life, fire and go to everything. The pessimist repels everything ; the optimist attracts everything. The pessimist fights the wrong; the optimist works to increase the power of right. The optimist is a building force; the pessimist is always an obstacle in the way of progress. The pessimist lives in a dark, soggy, unproductive world; the optimist lives in that mental sunshine that makes all things grow.

2

÷ (

Do you realize how true all this is? Don't you appreciate that THE OPTIMIST IS THE SUCCESSFUL MAN? The optimist is the man who invests, for he believes some good will come from such investment, and as EVERY REAL FORTUNE THAT EVER WAS MADE RESULTED FROM INVESTMENT, it is OPTIMISM that MAKES SUC-CESS.

The pessimist is the man who looks with suspicion upon all investment oportunities, and while he is hemming and having and failing to act, AN OPTIMIST GRASPS THE OPPORTUNITY, MAKES HIS INVESTMENT AND GETS HIS START IN LIFE.

It required a generous supply of optimism for men to go ahead and develop what is today the greatest wealth produier in the world-California Oil Lands-but their optimism has been repaid.

As a field for the safe and profitable employment of capital, there is absolutely nothing else in the country that equals California Oil. The records of the United States Govern-"ment show that oil operations may be conducted with the utmost assurance of success, while the dividends that are being paid month by month, and the stock that has climbed 10, 20, 50, and even 100 times their original prices, eloquently tell their own story of the profits. To those who would employ their money where it will combine safety and profit to the greatest possible degree, the California Oil industry offers unrivaled opportunities. The industry is moving forward on the floodtide of prosperity and success, and a thorough searching investigation would convince even the most conservative and skeptical of its tremendous moneymaking prospects and its practically unlimited future. CAPITALISTS ARE TURNING THEIR EYES IN THE DIRECTION OF THE CALIFORNIA OIL FIELDS, and are beginning to see in them the POSSIBILITIES OF ENORMOUS RETURNS FOR THE CAPITAL INVESTED. There is no uncertainty about an oil well once it has shown itself to be a steady producer. One successful well pioneers the way on the adjoining territory for hundreds of others, and the investor has FEWER CHANCES OF GOING WRONG than he has in any other occupation depending upon successful exploration.

THE DOMINION OIL COMPANY own outright 240 acres of proven oil lands situated in Coalinga, California, the RICHEST DISTRICT in what is admitted to be the GREATEST OIL FIELD IN THE WORLD. THE DIRECTORS are all well-known, successful Canadian business men, who have invested heavily in the shares of the above Company. The Company's well is drilled to a depth of over 2730 feet and the drilling is being pushed as fast as the most up-to-date machinery can do the work. At 2200 feet they encountered the first oil sands, bringing in a well of 33 gravity oil, which has a market at the well of \$1.10 a barrel, and humanly speaking, they cannot fail to bring in the same big flow of high gravity oil, which the Canadian Coalinga Company brought in at a little over 3000 feet.

We are offering the Treasury Shares of the DOMINION OIL COMPANY at \$1.00. per share, and there is no better opening for \$100 or \$5000 than the purchase of shares in the DOMINION OIL COMPANY. Before the Canadian Coalinga Company brought in their big flow their shares went begging at a price considerably under par, To-day \$20 per share is being bid for these same chares,

WHAT THE CANADIAN COALINGA COMPANY did for its sharehol lers, we conscientiously believe the DOMINION OIL COMPANY WILL DO FOR YOU. DO NOT BE A PESSIMIST.

Illustrated Prospectus and full particulars cheerfully furnished on request without any obligation or expense on your part.
