prices of steel rails, plates and bars in England, and the wages of English workmen have been reduced as a consequence men have been re sold back to us. The United States would like Canada to send her iron ore across the border, have it made into steel rails, structural steel and other products, and shipped back to us in that finished and expensive shape. The United States will make a reciprocity treaty with Canada if, thru that treaty, it can make Canadians the hewers of wood and drawers of water for American manufacturers. The policy that Canada, or rather the Province of Ontario, adopted some few years ago, in regard to sawlogs, must be followed in dealing with all our other raw materials. The United States wished to impose the stream of the company's service is interpolated and the city must assume liability for accident to the province and troubles among fishermen. Most of the city must assume liability for accident in the city must assume liability for accident in the city must assume liability for accident and troubles among fishermen. Most of the city must assume liability for accident in the company's service is interpolated to a bitter struggle, goes into effect to day, and the religious communities are greatly of Ontario, adopted some few years ago, in regard to sawlogs, must be followed in dealing with all our other raw materials. The United States wished to import Canadian saw logs and cut them up into lumber in their own mills. The Pro- The Chinese and Japanese at Vancouver vince of Ontario said, "No, if you wish our lumber, you must manufacture it in this province." The adoption of a policy consistent with this idea has resulted in unwonted activity in the lumber industry in Ontario. Our saw log policy must be extended so as to include our pulp-wood, iron, nickel and other raw products.

The United States is much mistaken if the United States is much mistaken if it imagines that Canada will agree to a reciprocity treaty under which our raw Ottawa Journal: The rumor that Sir this quarter. reciprocity treaty under which our raw products are exchanged for their manufactures. If our neighbors are short of pulp-wood They will have to buy our finished paper, not the raw product from Dayton, Ohio, to get a car built.
