# eight strike leaders on charges of sedition, Sergt. Waugh, a witness, told of a conversation with Edward Brown, Calgary, when a copy of the Western Labor News, bearing a circular chart of the soviet government, reached Calgary. Holding the paper in his hand, Brown called Waugh to his side, witness testified, and said: "This is the aim of the One Big Union—the soviet form of government—and we are going to have it." Referring to strikes in sympathy with Winnipeg during the general strike here, Sergt. Waugh said it was noticeable that only those who struck were advocates of the One Big Union. He read reports of several meetings at which Mr. Pritchard spoke, at which he had taken notes. Reading from these notes a part of one of Pritchard's speeches, he said: "The Government and capitalists who own the Government whenever the workers demand their rights call them Bolsheviks. They know that Russia has succeeded in fifteen months in doing what we have not been able to do in the last ten centuries. They know everybody has to go down to work in Russia. They fear the position would be the same in this country if the workers were successful in their aims, and so they call them Bolsheviks." Another Report. Another report said: "It is the duty to make the Government retract the Prussian heel and let them know once for all that the workers are the only power." Referring to postal employees, Brown said Pritchard declared: "It is the duty of all workers to strike and cause the Government to retract its orders, They may crush us for the time being, but there will be reaction about next winter." Appearance of Another "Cost ello" Article Results in Decision of Ford and Walkerville Commands To Take Strong Measures.

WINDSOR, July 31.—The entry into Canada today, at the port of Windsor, of the Detroit Free Press carrying another Costello article has so incensed the veterans that the executive of the Walkerville and Ford commands got together in a hurry and passed a resolution to use force if necessary to keep the paper from landing at this port. The Border Cities Liberty League, learning that organized resistance no longer is a possibility but a certainty, dispatched a telegram to Sir Robert Borden, protesting the Government's delay in taking action.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often

due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phos-phate known among druggists as bitro-

There was a big gulf between the workers and capitalists, and it was merely a question of who had the right to be in power. "They hate us like snakes, and would kill us if possible."

Sergt. Waugh then gave a short history of the O. B. U., which had its conception at a mine workers' conference. These were chiefly Russians and Austrians, led by British, Scotch, Irish and Italians, he said.

Among exhibits filed, identified by the witnesses as having been seized in the offices of Edward Brown, was a letter from Alderman W. B. Simpson, Winnipeg, inclosing a year's subscription for a publication handled by Brown. Dr. C. O. Collins, superintendent of the general hospital, told of having to present a written request in person to the strike committee for permission to have some of his striking employes return to work.
