zens. Many clubs and associations have provisions for the appointment of honorary members, and it is a proper method of acknowledging past services or expressing respect and regard, Why therefore should not Toronto take advantage of the visit of Lord Roberts to establish a roll of honor and commence it with the name of a distinguished soldier especially close to the hearts of all Canadians? The World suggested yesterday that Lord Roberts should be made a freeman of the city, or, if you will, made an honorary citizen of Toronto. Let Canadian citles have some effective way of paying honorable tribute to a great man.

THE MOTHER OF PARLIAMENTS.

Mr. Lowther, speaker of the imperial house of commons, recently called attention to an interesting fact illustrative of the "extraordinary continuity" of the illustrious body over which he presides. Many are prob-Ontario ably aware that the sovereign's assent to bills that have passed the lords and commons, is given in old Norman French, but few perhaps know that all formal communications between Roosevelt Comes Out Boldly For Ships the house of commons and the house of londs are still carried on in the same tongue. The Speaker, in response to an interjection of disapproval, added that it was to him a matter of the deepest interest that this should be so and he should very much regret if the old forms were changed. "They convey," he said, "everything we want and preserve the continuity of this ancient assembly." Newer democra- navy. cies are apt to ridicule the survival in Britain of the customs and usances of the past and the conservatism that maintains them. But the instinct now inbred is but the expression of the habit of mind which has carried the nation successfully and peacefully thru great revolutionary changes, and while it remains effective will continue to ensure progress without endangering stability.

MR. ROBINETTE AND "LIBERAL PRINCIPLES."

Mr. Robinette's "call" to young Liberals is instructive, not so much for what it contains, as for what it leaves unsaid. He assumes that there areunsaid. He assumes that there are "had almost fallen into disgrace and "hundreds of young Canadians only contempt until the American nation anxious and willing to espouse Liberal principles and take an intelligent hand in the government of our fair Dominion." The Tercentenary.

The scenes of ancient glory now being re-enacted at historic Quebec, and the fact that the principal participants are descendants of the former actors in this wonderful drama have created the most enthusiastic interest amongst the people of Ontario. As but few, comparatively speaking, of Ontario's sons or daughters will be spectators of the wonderful pageantry now being displayed on the historic Plains of Abraham, it is for The Sunday World to bring those gorgeous scenes to the eyes of the stay-at-homes. This week's illustrated section will be replete with views of the Tercentenary and the scenes being enacted there.

A paneled frontispiece of dazzling beauty, showing King Francis I. going out to meet Jacques Cartier: the court of King Henry IV. at Louvre, France; Champlain leaving France and receiving his commission; Jacques Cartier's arrival at Stadacona; picturesque and awe-inspiring scene of Iroquois Indians attacking the fort at Long Sault; portraits of many historical figures in the costumes then worn; views and scenes in the life of Gens. Wolfe and Montcalm.

There are many other features of local and general interest in this week's picture section, that, combined, makes a souvenir number that will appeal to all classes.

Remember, there is no increase in prices. For five cents The Illustrated Sunday World can be obtained from all newsboys, at all news and stationery stores, and on all railway trains and boats. Order early to insure securing a copy.
