ARE PLENTIFUL

As cucumbers come into the open markets in greater quantity and lower in price, they should appear on the nation during many of the early summer days. During the winter, cucumbers are a hothouse product and are classed as luxuries, but when outdoor gardens begin to yield, they become accessible to most household budgets. Here is a little collection of recipes for serving them:

Attacked.

Special to The Toronto World. NEW YORK, June 29 .- In an ediorial broadside The American today calls upon the congress of the United States to take over and deal with the Mexican situation. In congress, says The American, is vested the power to declare war, to raise armies, to defind piracy and other offences on the high seas, and yet Mr. Wilson has decided all questions arising between Germany, Austria, Mexico and the United States upon his own responsibility. Now and then, says The American, the decisions of President Wilson and Col. House have been communicated to congress, but not until after they had already been-transmitted by cable to foreign nations. No one ever thinks of asking whether congress will declare war, but newspaper headlines indicate that the public expects the president alone to decide. In theory, says The American, congress is supreme and it is the duty of the president to execute the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute its will, but in fact the president to execute t calls upon the congress of the United

That was an earnest rally that the Leafs staged in the seventh. They have the right spirit. Never give up until the last man is out.
