STOCKS CLOSE STRONG

Heavy Operations Mark Holiday Close at New York-Locals Now Sympathetic.

World Office,
Friday, Evening, Sept. 2

Bullish manipulation which started in the market on Wednesday, was carried into further effect to-day. Traders have suspected some such display for some time, and had about concluded that it would not materialize. The continued strength at New York has seemingly established confidence among insiders here, and a test of the local following is a result

Willett & Gray say: A buying movement in sugar begin this week, and increased considerably. Season for preserving fruits is no win full swing, and a very heavy distribution of sugar will be required to meet the demand of the canners.

The Metropolitan statement for the year shows a deficit of \$1,396,000. This was one reason for recent selling of the stock. The road carried \$,000,000 more passengers, with a decrease of \$64,000 in gross earnings. The severe winter and accidents involving damages account for the heavy loss in net. The gold production of the Transvaal for 1904 is estimated at \$77.864,000, if 5he present ratio for four months is continued. For 1903 it was \$61,265,570. The output next year is figured from \$120,000,000 to \$150,000,000.

Head & Company to R. R. Bongard. In our opinion, the market will continue to favor purchases of the progress toward a higher level. All indications point to the conclusion that the bulk of stocks continues in scrong hands, from which they are not likely to be dislodged thru temporarily unfavorable developments. The extreme case in the money market facilitates builish operations, and bankers generally express the opinion that a serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction is highly improbable, although the serious disturbance in this direction. OPTION DEALING.

To many even now the advantages of Option Dealing are quite unknown. It is, however, admitted by all competent to judge that Call Options afford to the Small Capitalist the safest and best method of dealing in Stocks and Shares. The following, among other advantages, offered by Options, are, we believe, conclusive testimony to this statement: No interest, no Contango, and loss limited to the amount of Option money. In Option dealing the small investor is on equal terms with the wealthy Capitalist.
