ISLAND BRIGADE HAS FINE RECORD

Has Provided Many Officers for Canadian Artillery at Front

Charlottetown, P.E.I., Aug. 3.—The Prince Edward Island Heavy Brigade, commonly known as the 4th regiment, has made a magnificent record for itself in providing officers for the Canadian artillery. Six majors in command of batteries in France are all from the 4th—Major Frowe, D.S.O., No. 2 Siege; Major D. A. McKinnon, D.S.O., 8th Field; Major J. W. Stanley, 2nd Field; Major T. W. McDonald, No. 4 Siege; A. T. McKay, Montague field; Major Peake, 8th Siege. There is also a major from the 4th in the medical service, Major J. S. Jenkins, D.S.O.

UNJUST CRITICISM

(Special to Times) Fredericton, Aug. 3.—Spreading of editorial criticism levelled at the provincial government, that its members are not devoting sufficient time to their duties, has been said today that he had been on the roads twenty-six days during July on business connected with the affairs of the province. Authors of criticism of the nature referred to did not know the facts.

WAR NOTES

Emperor Charles, of Austria, recorded in audience Dr. Michaelis, the German chancellor, on Thursday. Victoria Cafe, Berlin, has been closed for violating the food regulations. The German government has put a stop to Berliners going into the country districts to buy food. The city of Liege has been fined 600,000 francs for disobeying a German order to demolish buildings damaged by fire on the Quai des Pecheurs.

DEATHS

On Tuesday afternoon Jeremiah Allen, of Timber River, passed away.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS 50c.

DEATHS

FINLAY—On August 3, at his son's residence, Loch Lomond road, Hugh Finlay, aged 78 years.

IN MEMORIAM

WILLIAMSON—In loving memory of Mrs. James Williamson, who departed this life August 3, 1917. In the graveyard softly sleeping, Where the flowers gently wave, Lies the one we love so deeply, In her lonely, silent grave. She will never be forgotten, Never shall her memory fade; Sweetest thoughts will ever linger Around the grave where she is laid. PARENTS AND FAMILY.

MOVEMENT OF IMPORTANCE

Development of Resources of The Dominion

Survey of Industrial Plants in Canada Now Being Undertaken as a First Step—The Work in New Brunswick

A movement which is expected to be of vast importance in the development of the natural and industrial resources of the Dominion is now under way. The object is to increase the efficiency of the industrial organization of the country by the development of present facilities, the development of others and finding means to increase the efficiency of the industrial organization of the country.

The first step is a survey of the industrial plants of the Dominion and it is now being undertaken in New Brunswick by the members of the Canadian Society of Civil Engineers, a committee, headed by F. C. Goodspeed, having been organized for the purpose. The aim of the movement are explained in the following circular. On June 6, 1916, a committee of the Privy Council of Canada, consisting of the right honorable the minister of trade and commerce (chairman), the honorable the ministers of the interior, agriculture, mines, inland revenue and labor, was formed by the Privy Council to have charge of a survey of the scientific development of Canadian industries in order that during and after the present war, they may be in a position to supply all Canadian needs and to extend Canadian trade abroad. Under this committee of the Privy Council there was constituted, on November 29, an honorary advisory council for scientific and industrial research, composed of eleven members representing the scientific, technical and industrial interests of Canada.

THE AIMS

This advisory council, by direction of the chairman of the committee of the Privy Council, has been charged with the following duties: To ascertain and tabulate the various agencies in Canada which are now carrying on scientific and industrial research in the universities and colleges, in the various laboratories of the government, in business organizations and industries, in scientific associations or by private or associated investigators. To note and schedule the lines of research or investigation that are being pursued by each such agency, their facilities and equipment therefore, the possibilities of extension and expansion, and particularly to ascertain the scientific man power available for research and the necessity of adding therein. To co-ordinate these agencies so as to prevent overlapping of effort, to induce co-operation and team work, and to bring up a community of interest, knowledge and mutual helpfulness between each other.

To make themselves acquainted with the problems of a technician and scientist in the nature of that are met with by our productive and industrial interests, and to bring them into contact with the proper research agencies for solving these problems, and thus link up the resources of science with the labor and capital employed in production so as to bring about the best possible economic results. To make a scientific study of our common used resources, the waste and by-products of our farms, forests, fisheries and industries, with a view to their utilization in new or subsidiary processes of manufacture and thus contributing to the wealth and employment of our people.

To study the ways and means by which the present small number of competent and trained research men can be added to from the students and graduates of science in our universities and colleges, and to bring about in the common interest a more complete co-operation between the industrial and productive interests of the country and the teaching centres and forces of science and research. To inform and stimulate the public mind in regard to the importance and utility of applying the results of scientific and industrial research to the processes of production by means of the publication of bulletins and monographs, and such other methods as may seem advisable.

The honorary advisory council hopes to render valuable assistance to a movement, the success of which is not only vital to the proper development of the Dominion, but which is absolutely necessary in order to enable Canada to compete with progressive countries in the great race of national expansion.

SWISS GOVERNMENT SEIZES GRAIN CROP

Berne, Aug. 3.—The Swiss government has issued an order sequestering the entire cereal crops with the exception of the quantities required for the personal consumption of the producers and for seed purposes.

GERMAN WRITERS SHY AT FACTS

Doctored Reports of Flanders Fight Sent Home

THEY OBEY ORDERS

Miles Behind Firing Line Their Reports of Battle Are Received From German Military Censors

Copenhagen, Aug. 3.—German newspapers of Thursday morning contain no details of importance on the battle in Flanders beyond the official reports. German war correspondents are as yet observing the battle from a safe distance near Charleville, several hundred kilometers behind the front and endeavor to give the news from the scanty material supplied by the military censors. That the correspondents observe instructions is evidenced in all the newspapers by the heading "specials from the front" and all state that the German artillery was able to hold its own with the Anglo-French in the preliminary bombardment. All the accounts emphasize the character of the British and French attacks, and all claim the preliminary victory, explaining, however, that the heavy fighting has not ended and may continue for weeks. A casual survey of the German general staff through the Wolff Bureau mentions that Bischofshof three times changed hands in addition to other places mentioned by Field Marshal Haig, but the German lines gripped the village north and east. The British, according to the survey, delivered the main thrust before Ypres and succeeded in capturing Langemarck, in addition to other places mentioned by Field Marshal Haig, but were unable to hold Langemarck and St. Julien in the face of a German counter-attack which was repulsed. The report seeks to give the impression that only the immediate front line trench has been lost and certainly without any mention of the depth of the German gain.

RETURNED SOLDIERS AT QUEBEC

Quebec, Aug. 3.—Close to 600 invalid soldiers and officers have arrived here from overseas and will disembark today.

AMERICAN ENGINEER INSPECTS MINERAL DEPOSITS HERE.

HUNT'S MID-SUMMER SALE ENDS TOMORROW, AUG. 4

Store Open Tonight Till Eleven O'Clock

Today we issue the last call to our midsummer sale. An army of buyers have been here since this sale commenced and have profited greatly. Summer clothing and furnishings for men and boys have been sold at greatly reduced prices.

There are still good bargains left—plenty of them—but the time is growing short. The sale will positively end here, yet close tomorrow at the Buy 'n' Save Clothing Store, 17-19 Charlotte street.

THIRTY CLEVELAND BABIES DIE IN THE HEAT

Cleveland, Aug. 2.—All previous records for infant mortality were broken on Wednesday by the deaths of fifteen babies up to noon from heat prostration, making thirty for two days. The government look registered 101 degrees at one o'clock Wednesday afternoon.

PERSONALS

Hopes are entertained for the recovery of little Edith Clark. She is reported to be resting very comfortably in the General Hospital this afternoon. Mrs. J. T. Dalton, who was seriously ill in the St. John Infirmary, has returned to her home, 854 Main street. She will leave tomorrow for Greenwood, where she will spend the remainder of the summer.

Mrs. James McAlon, who was called to Charlottetown by the death of her mother, Mrs. Andrew Hay, returned home on Thursday. Bishop Smith, who is visiting the A. M. E. communities in the maritime provinces, Ontario and Michigan, arrived in the city on the 9:30 train last night. He is the guest of Rev. R. H. W. Pinkett, of St. Philip's church, over Sunday.

- Flowers 15c., 25c. and upward

Store Open Friday and Saturday Evenings Until 10 p.m.

Model Millinery 29 Canterbury St.

AMERICAN ENGINEER INSPECTS MINERAL DEPOSITS HERE.

Fredericton, Aug. 3.—W. L. Cummings of Bethlehem, Pa., an engineer representing the steel interests in the United States in which Charles M. Schwab is concerned, returned this morning from the northern part of York county where he had been inspecting the tungsten mine at Burnt Hill and the mining location of W. T. Griffin at Winding Hill in which it is thought silver has been discovered. Mr. Cummings said that the tungsten mine appeared to be a first-class proposition. Of the Winding Hill location he said lead and zinc appeared to be in the deposits.

The occurrence of traces of these minerals within a few miles of the Burnt Hill tungsten mine, said Mr. Cummings, "indicates without doubt that the country in that section is highly mineralized. I was surprised to see what Mr. Griffin had found."

WOMAN'S EXCHANGE LIBRARY

Some of our new books—"Chimera Muriel" (Copenhagen); "Definite Object" (Farnon); "Bub" (Rinehart); "Pastor's Wife" (Author of the "Caravans"); "Man Thou Gavest Me" (Combs); "Sheaf of Blue Bells" (Oracy); "Red Planet" (Locke); "Sam" (Rath), etc. Rent our books. You only read them once.

LIEUT. COL. I. L. McAVITY HOME

Lieutenant-Colonel J. L. McAvity, who has been in charge of the instructional cadre in Massachusetts for the last few weeks, returned to the city today. At the camp the officers of the 9th, 7th, 8th and 9th regiments were trained in trench warfare, physical training and bayonet fighting. Colonel McAvity said that the officers are of a fine type. Just prior to his leaving home there was presented to him a beautiful combination cigarette and cigar case. During the last few days in Boston, said Colonel McAvity, the heat has been intense, the thermometer registering 107.

The instructional cadre at Framingham in which Colonel McAvity was in charge is to be taken over by the federal authorities on Sunday. The colonel spoke very highly of the manner in which he and his officers were used while in the states.

A GOOD APPOINTMENT

(Halifax Chronicle) The selection of I. C. Stewart, editor of the Maritime Merchant, as the Nova Scotia member of the advisory council appointed by the food controller, is an excellent one. Hon. W. J. Hanna telegraphed to Premier Murray asking him to nominate a representative from Nova Scotia to act in an advisory capacity with the food controller, the government recommended Mr. Stewart, and his appointment promptly followed. Mr. Stewart is well informed as to commodity prices and is exceptionally well qualified to advise the food controller as to trade conditions in Nova Scotia. He is capable of giving, and sure to give, efficient public service in the work of the advisory council.

PREACHER IN TROUBLE

Cedar Rapids, Ia., Aug. 3.—Charged with preaching treasonable sermons, Rev. John Reichart, pastor of the German Evangelical church at Lowden, Ia., was Wednesday held to the grand jury in \$5,000.

NO ARRESTS

There were no arrests made by the police yesterday.

ONE HUNDRED TONS
