But stop a moment! How would your wife and ciddles fare if you should die to-day? What provision have you made for such a contingency? If you haven't provided as much protection as you know they should have, you need an Imperial Home Protection Policy. Let us send you our pamphlet and full particulars. You will find them interesting.

# Furniture Value Means "Quality" at Low Prices

Low price by itself is not inducement enough for you to buy your furniture from any particular store. Neither can you afford to go to any one house that offers only "quality," as inducement. But when you find a store offering LOW PRICES ON HIGH QUALITY FURNI-

TURE, that is the store you should visit before you even think of buying elsewhere.

For man yyears we have had the reputation of selling all that is good in quality furniture, and our prices have always been such that we absolutely defy competition, even from houses who handle only the cheapest grade of goods.
