WORKMAN SAYS NO

TRUTH IN REPORT OF

BEAVERBROOK MERGER

Sydney, N. S., Aug. 22.—A message from Mark Workman, president of the Dominion Steel Corporation, states that there has been no discussion whatever between him and Lord Beaverbrook as to the possibility of an amalgamation of Dominion Steel and the Steel Company of Canada, nor are any negotiations in progress looking toward the merger of Dominion and Scotia. An article in last week's issue of the Toronto Financial Post said that Lord Beaverbrook was investigating himself in the possibility of an amalgamation of all three of the steel companies in question and that the merger of Scotia with Dominion Steel was also under consideration.

DEFERRED PAYMENT CONTRACTS

CONVERTED INTO READY CASH

Of Interest to Dealers Who Sell Articles on Time

The volume of time sales now no longer depend on the amount of capital invested, for deferred payment contracts can as they are secured be converted at once into ready cash by means of the credit plan of the Commercial Credit Company of Canada Ltd., who have opened offices at St. John, N. B., to cover business in the maritime provinces, under the management of J. E. Dimock.

"The system of the Commercial Credit Co. of Canada, Ltd., is very popular wherever we have introduced it throughout Canada, appealing strongly to dealers in automobiles, pianos, musical instruments, and such articles as are sold on 'time' payments or conditional sales notes. By means of the plan dealers are able to take advantage of manufacturers' discounts, to increase their stock, their sales, their profits and to better still it does not interfere with banking arrangements. It permits of greater profits, without increasing capital."

The Commercial Credit Co. of Canada, Ltd., is entirely Canadian, being organized wholly for the benefit of Canadian merchants and now has branches in Vancouver, Regina, Winnipeg, Montreal, St. John with "head office" in Toronto.

LESSON OF ECONOMY IN
DECLINE OF STERLING

Experts Also Exhort People to Increase of Production for Export

London, Aug. 21.—(Reuter's).—The decline in sterling, especially in the American exchange, is featured in the newspapers here. The sovereign fell yesterday to \$4.10, the lowest on record, this one pound sterling is only worth seven shillings in the United States. Experts here are exhorting the public to study foreign exchange and to appreciate the necessity of economy and increasing the production of exports, pointing out that money which now seems so cheap is really being hoarded in the United States in order to sell goods abroad as the only remedy. It concludes its comment on the subject by stating "that it is unlikely the Allies will resume a system of artificial stabilization of exchange."

Chief of Police of Lille Asks Extradition of Von Heinrich, Von Gravenitz and Von Himmel

Lille, Aug. 22.—The extradition of General Von Heinrich and Von Gravenitz, German governors of Lille during the occupation of the city by the Germans, and Captain Von Himmel, chief of police of Lille at one time, is to be asked by the Chief of Police of Lille, who has just concluded an investigation and a report on the situation in Lille while the Germans were in control there. The data, which will be sent to the peace conference, will charge the generals and Von Himmel with murders, executions, violence and common law offences.

U. S. Duty on Tungsten.
Washington, D. C., Aug. 22.—By a strict party vote the House yesterday passed and sent to the senate a bill imposing a tariff of \$10 a unit or \$600 a ton on crude tungsten ore and \$1 a hundred on ferro-tungsten and other tungsten salts.

NOT TOO MODEST
(Montreal Journal of Commerce.)
The question, "who won the war?" has been discussed by a number of writers in various countries, each one disposed to regard the part of his own country as the most important one. In the United States not a few good citizens persuaded themselves that the war was won by the American army. It was an amusing notion, which most of us were inclined to smile at and not ascribe to sensible Americans. That the Americans came into the war at a time when their aid was of great value, and that they thus shared the glory of victory with the nations which had fought for three years before any American soldier appeared in Europe, everybody is ready to admit. Only foolish boasting has been hitherto claimed more than this. Now, however, we find America's part in the great conflict set forth by President Wilson in terms which he might well have left to Fourth of July orators in the back districts. In his speech to congress last week on the cost of living, Mr. Wilson pleading for assistance to the people of Europe who are short of food, said:

"It is in this supreme crisis—this crisis of all mankind—that America must prove her mettle. In the presence of a world confused, distracted, she must show herself self-possessed, self-contained, capable of sober and effective action. She saved Europe by her action in arms; she must now save it by her action in peace. In saving Europe she will save herself, as she has done in the past."

The calmness and capacity with which she deals with and masters the problems of peace will be the final test and proof of her place among the peoples of the world."

"She saved Europe by her action in arms" is not the kind of statement one would have expected from the head of a great nation which entered the war after other nations had fought and sacrificed for years. It might be too much to say that the British navy saved the exports of the United States from bombardment. But we would not expect either King George or the first lord of the admiralty to say so.

TO MOVE TO MONCTON
Sussex Record—Alderman Frank R. DeBoo and family will move about Sept. 1 to Moncton, where they propose taking up their residence. Alderman DeBoo will manage the Canadian Express Company's business in that growing city, and the change has made it compulsory for him to remove from Sussex, where he has lived since childhood days. His removal to Moncton will make a vacancy in Ward Two, and as his term of office does not expire until November, an election will be necessary. Mr. DeBoo is both very popular in church and social circles, and their intended departure from Sussex will be mourned by their many friends with much regret.

ABOUT ELEVEN

CENTS FOR SUGAR

Washington Makes Announcement

—Active Control of Price is Resumed

Washington, Aug. 22.—Active control of sugar prices was resumed by the government yesterday, through an agreement reached between the department of justice and the food administration that licenses will be revoked by the latter when it is shown dealers have been profiteering.

Sugar should reach the consumer at approximately eleven cents a pound, it was announced, based on the ownership of the entire domestic and Cuban crop by the United States sugar equalization board, which is selling to refiners at 7.25 cents a pound.
