**INKS.**

THE Subscribers having been appointed AGENTS for the Sale of the above INKS, beg to inform their Customers and the Public generally, that they have just received a large supply.

These Inks flow limpid from the pen, and are free from any ingredients corrosive to paper, or steel and gold pens. The Black Ink is of a good color when first used, which deepens to a bright jet black within a few moments and remains permanent. The Blue, Japan, Copying and Carmine Inks will compare with any in the Market. They are put up in a new and superior style of glass bottles, in half gallons, quarts, pints, 8 ounces, and down to 1 ounce.
