rate, pyrogailatriglycollic acid azosulph- miles in operation. oxylben-zoiephloroglucin, and naphthy-dimethylamidophenylsulphon" are pretty specimens of the concise nomenclature of modern chemistry.

An Italian professor has made some very agreeable researches, resulting in the discovery that vegetable perfumes exercise a positively healthful influence INTERCOLONIAL RAILWAY.

exercise a positively healthful influence on the atmosphere, converting its oxygen into ozone, and thus increasing its oxidizing influence. He recommends the cultivation of flowers in all marshy districts.

I have the gratification of informing you that Her Majesty's Government has generously presented to Canada for training school purposes, the steam corvette Charybdis, lately returned from service in the Chinese seas. The correspondence on this subject will be laid before you. THE TRAINING SHIP.

THE CIVIL SERVICE. at Villagrande, Sardinia, some very remarkable instruments have been found, if, as is believed, they belong to the bronze epoch, which is supposed to have been exceptionally prolonged in this part of the island. The instruments in question are two bronze saws and a four-pronged fork, all found in the same repository.

Efforts to reduce monkeys to discipline

MANITOBA. have not always been successful. A A measure for the enlargement of the boundaries of the Province of Manitoba will be submitted to you. native of the province of Bengal has, however, trained several of them to work the cords by which the punka, or THE INDIANS

work the cords by which the punka, or ventilating fan of India, is moved. They perform their task to perfection, and, thanks to their activity, keep the punkas in continuous motion, maintaining a constant agreeable movement of air all through the room.

Dr. Henry Barnes records a case of an extremely severe attack of gout brought on by sleeping in a newlypainted room. Three years before, the patient, an old man, had suffered from a slight attack of the disease, but soon the results of the sufficient of the aborginal population to betake themselves to agricultural pursuits.

THE ESTIMATES.

a slight attack of the disease, but soon Gentlemen of the House of Commons: a slight attack of the disease, our soon recovered, and up to the time of this exposure, had been quite free from gouty symptoms. The introduction of lead into the system is given as the cause of the attack.

Gentlemen of the House of Commons:

The accounts of the last and the estimates for the ensuing year, will be laid before you. The estimates will, I trust, be found to have been prepared with due regard to economy and the efficiency of the public service. It will be satisfactory that the estimates will be activated the public service. Canada House Building.

cause of the attack.

Dr. Cutter states that the increase of nervous diseases, decaying teeth, premature baldness and general lack of muscula, and bone strength are greatly due to the impoverished quality of flour now in use, the gluten being thrown

away in order to make the flour white. Honorable Gentlemen of the Senate: Gentlemen of the House of Commons: He urges the use of unbolted flour, He urges the use of unbolted flour, and of ergs, milk and butter. He denies that fish is brain food, or that Agas siz ever said that it was, and claims that butter, being nearly ull fat, is a better kind of brain food than any other.

Those in pursuit of the marvelous may get a grain of caution fr m the following, taken from an article on "Living Toads in Stone," by Thomas G. Denny in a recent number of "Science Gossip": Most of us have heard of "Flint-Jack," but I do not think many readers of this journal

Heard of "Fint-Jack, But I do not think many readers of this journal have met with any manufactures of being and good government of the Dominion."

Your best attention will, I am sure, be given to the subjects I have mentioned, as well as everything that affects the well being and good government of the Dominion.
