

BUILDERS WANT: EXTRA SHINGLES, NAILS, CLEAR SHINGLES, PAPER, CLEAR SHINGLES, LIME, EXTRA NO. 1 SHINGLES, HAIR, CLEAR WHITE SHINGLES, BRICK, NO. 1 SHINGLES, GLASS, PUTTY.

W. S. LOGGIE CO., LIMITED.

Miramichi and the North Shore, etc. ST. PATRICK'S DAY. NEW HIGHWAY ACT - Forms under the new Highway Act are for sale at the ADVANCE OFFICE.

WANTED - To purchase a small tug boat, about 30 ft long, and 8 horse power. Address HUBBARD & HOPKIN, St. John, N. B.

WE ARE INFORMED to the Singer Manufacturing Co., through Mr. John Brooks, their Newmarket Agent, for three beautiful printed calendars for 1898.

To-Day - St. Patrick's day, masses will be celebrated at 8.30 and 11 o'clock at the cathedral. At the 11 o'clock mass, the choir will sing, and St. Michael's band will be in attendance.

THERE WAS AN ALARM of fire given on Saturday morning which was found to be in the attic of the First Hotel. It was put out before the engine got to the scene. There were no lights or damage done.

PERSONAL - Hon. Senator Snowball arrived in New York on Saturday last from England, and proceeded to Ottawa. It is expected that he will be in Chatham on Sunday to stay for a few days.

A VACANT PULPIT FILLED - On the evening of Monday last, the Rev. Mr. Henderson, of Base Mountain, P. E. C. N. S., was chosen by the congregation of St. Andrew's Church, Chatham, to fill the pulpit vacated by the Rev. Mr. McCoy.

GREAT PREPARATIONS are being made by the St. Michael's Society for their entertainment tonight. Don't fail to procure tickets in time. The members are springing nothing to make this their best effort. Look out for the big band wagon.

LEATHER CUT ON THE TORQUE - We learn from our exchanges that lumber operations on the Torque were brought to a close the first week in March. It is estimated that the Torque has fallen five million short of the estimate made last January.

THE SEASON - During Sunday and Monday the weather was remarkably mild, but on Tuesday it again turned cold. This change was for the better as it improved the situation on the ice and roads which were so soft that it had almost ceased to venture out.

CIVIC ELECTIONS in MONCTON: The Moncton city elections for mayor and aldermen took place on Monday last and a large vote was polled. Mr. E. C. Cole was elected mayor by a majority of 33 over his opponent, Mr. H. H. Aysc.

BRIDGES DAMAGED - On the morning of Monday last the ice went out of the Petitcodiac and Little rivers with a rush. Little bridges and the one at Little River bridge is badly damaged and about thirty feet of the bridge across the Petitcodiac at Salisbury has been swept away.

THAT FIRE ALARM - Some of our citizens will wonder why the fire alarm whistle in the Electric Light station was not blown for the fire on Monday morning last. The reason accounted for is that there was not sufficient steam at the time. It is well the bells are still retained.

NEWFOUNDLAND SEAL FISHERIES - On March 1, a fleet of eighty schooners sailed from the various ports of this island to prosecute the seal fishery, which has been largely closed since the late war. The Government has recently granted by the Government. There were also 24 steamers getting ready to sail for the same fishery and late dispatches announce that they left on the 16th inst.

ROBBING A CHURCH - Sunday last there was a robbery in St. John's church and there was a large attendance of communicants and hearers. After the collection had been taken it was in the place it is usually kept until the service was concluded. When Mr. Alex. McKinnon was taking charge of the cash, went to get it he found it had vanished. During the service some vandal entered the vestibule and carried off the money and a few napkins. The plate contained somewhere in the vicinity of \$15.

DEATH OF DR. MORRISSEY - A dispatch was received at Newcastle on Monday last announcing that Dr. Wm. Morrissey had died at Brooklyn the previous day. The deceased gentleman was a native of New Brunswick and a brother of Mr. John Morrissey of that place. He was in the fifty-second year of his age and had practiced his profession in Brooklyn during the past quarter of a century. He leaves a widow and four children. On receipt of the sad intelligence, his brother left for New York to be present at the funeral.

WINDSOR, N. S., RAPIDLY REBUILDING - We are pleased to learn from our Nova Scotia exchanges that the town of Windsor, which was destroyed by fire last fall, is rapidly being rebuilt. During the last three or four months over one hundred fine and handsome buildings have been erected. At the present time in the business part of the town a number of very fine brick buildings as well as two large and handsome hotels are in course of construction. Dr. Allen Haley, M. P., for Hants, says that the value of buildings to be put up before the end of the year at Windsor will be \$1,000,000.

J. C. R. TRAFFIC MANAGER - The New Brunswick Advocate informs us that "A. H. Harris, general traffic manager of the government railway system passed through here yesterday en route to Moncton. His private car "Montreal" was visited by our business men, protesting against the increase of local rates, and Messrs. G. A. Lonsbury, P. Hennessey, T. W. Flett, E. A. McCurdy, D. Morrison, W. A. Hickson, C. D. Mann and Charles C. Hicks accompanied Mr. Harris to Moncton to discuss the local situation.

The Advocate informs us that the result of the interviews was that he promised the delegation to make everything low enough in freight charges on the Miramichi so that every industry shall be benefited and fostered.

FORBES' ENTERTAINMENT - A very enjoyable social was given in the Dickson school house, New Brunswick, on Thursday night last week. It was under the auspices of the Hamilton Court of Foresters. A very interesting programme was furnished by the Foresters and their friends. Much coffee is due the young ladies of the neighborhood for the excellent assistance rendered by them. After the programme the baskets that had been brought by the ladies were sold as determined to have certain baskets at any

the fitting up of which cost the proprietor \$300. Mr. Flanagan had the building insured in two companies and the furniture in one. The amount of damage done to the building was put down at \$700, and was paid by the Phoenix, represented by Mr. Jas. F. Connor, and the Imperial of London, represented by Mr. Jas. G. Miller. The furniture insurance has not been settled as yet, but the damage is promised to be fully recovered.

The proprietor wishes to thank all who worked hard in fighting the fire, and to those who interested themselves otherwise, and beg to state that the house is again standing as usual and ready for the travelling public.

Great Britain will add 21,000 extra men to her army, and her naval expenditures for 1898 will be larger than those for any other year in her history. Great Britain maintains peace by keeping herself in readiness for war.

The jury in the case of Sheriff Martin and his dupes for shooting at the Lattimer, Pa., on Sept. 10, returned a verdict of guilty.

Late despatches from India announce that serious plague riots have occurred in the native quarters at Bombay. A number of persons have been killed and wounded and troops and bluejackets have been despatched to the scene of the disaster.

On the 9th inst., Lord Roberts of Candahar made a speech in the House of Lords in favor of a forward policy on the Indian frontier, and declared the Russian peril and declaring the policy of non-interference with the frontier tribes had been a complete failure.

The Canadian Pacific railway is now one of the most gigantic corporations in the world. It has belied all the predictions of the knowalls who said it would never pay running expenses. The road is now only eighteen years old and yet it has 670 miles of track. It has besides two steamship routes on the Pacific coast to India and China. Its assets which are valued at \$245,000,000 have a yearly earning capacity of \$24,000,000.

The president of the National Lumber Dealers Association of the United States made the statement officially that the annual output of lumber in that country exceeds in value all the gold, silver, coal, iron and wheat. This is a strong statement, but it is true as far as the United States is concerned. Its assets which are valued at \$245,000,000 have a yearly earning capacity of \$24,000,000.

In view of the great wealth of Canada's timber resources, it is high time that the government of the different provinces met and took measures to prevent the reckless depletion of the forest wealth of Canada.

It is announced that the plebiscite bill will be introduced in the Canadian Parliament within a fortnight.

The Legislature. Fredericton, March 9. Mr. LaBelle, in explaining the bill for the further extension of agriculture, said that the measure before the committee authorized the government through the Commissioner of Agriculture to grant assistance by way of bonus to persons or companies erecting mills for the grinding of wheat by the Hungarian or other roller process in localities where no such mills are at present established, or for the conversion of any existing mills into mills equipped for such roller process.

Mr. LaBelle said that the measure before the committee authorized the government through the Commissioner of Agriculture to grant assistance by way of bonus to persons or companies erecting mills for the grinding of wheat by the Hungarian or other roller process in localities where no such mills are at present established, or for the conversion of any existing mills into mills equipped for such roller process.

There were a great deal of interest centered in the Little River races, which were won as follows: Half mile skating race: Richard Currier, running race: Wm. Buckley. Chariot race: Ernest Barnet and Tom Murphy.

These were the closing sports for the winter and evening, which has been largely enjoyable of all the evening's sport at the rink. After the close Mr. McCalloch and Mr. Dan. J. Murphy, who accompanied him, together with the band were given an oyster supper at the rink.

Mr. McCalloch speaks very highly of the reception given him in Chatham, which is but another instance of the hospitality usually practiced by our citizens.

Natural History Society of New Brunswick - Free Competition, 1898. By the generosity of a public spirited citizen the Natural History Society of New Brunswick has been furnished with means to offer a number of prizes for competition throughout the province. The object of the competition is to encourage in the young an interest in nature, and to direct that interest along lines of importance to our agricultural community. The prizes will be awarded for the best collections made during the year of 1898, and the specimens of the most valuable of any of the evening's sport at the rink. After the close Mr. McCalloch and Mr. Dan. J. Murphy, who accompanied him, together with the band were given an oyster supper at the rink.

Prizes - 1st, \$25; (2) \$10; (3) \$7; (4) \$5; (5) \$3; (6) \$4; (7) \$3. Vase - 1st, \$10; (2) \$5; (3) \$3; (4) \$2. A circular containing full information for intending competitors can be had on application to the secretary of the society.

The Adams House Fire. The fire broke out on an alarm of fire on Monday last at 10 o'clock. It was found that the fire had broken out and made considerable headway in the kitchen of the Adams House. In a short time a great crowd had gathered and everything was done to check the blaze from spreading by the use of a small pump hose and buckets. This wall that could be done for fully half an hour after the alarm was given. In halting the engine from the Town Hall, the horses were unable for the work on account of slumping and the sleds sticking in the soft snow, but by attaching a heavy rope to the sleds and a long line of men, they managed to drag at the Government "char", just opposite the Adams House, the Electric Light Station had a hose in readiness shortly after the alarm was given, but it was not of sufficient length to reach across the street. They tried to get a length from the superintendent of the engine, but some of the hoses did not allow it. A team was then dispatched to the pulp mill where they got a few lengths and was back and had a steam playing ten minutes before the engine was in readiness. If this had been done in the first place there would not have been so much damage done. As soon as the engine had got in working order, two heavy steamers were thrown and they did excellent work, and with the assistance of the fire from the Electric Light Station soon succeeded in getting the fire under control. It was a hard night as the fire was approaching the main building. With the exception of the water and smoke in the rooms, there was not much damage done to the main building. The kitchen is badly gutted and will be torn down and replaced by a larger one. The upper part of it was used as bath room.

law relating to municipalities was discussed; progress was reported. Progress was also reported on the bill in amendment to the Moncton incorporation act. Mr. Pitts to continue the act incorporating the Grand Falls Power and Boom Company (Ltd.) was agreed to.

March 12. - Bills incorporating the bishop and chapter of the Cathedral of Christ the King, Fredericton; to further amend chapter 100 of the Statutes, fences, trespasses and pounds; further amending the law relating to bastardy; further amending chapter 60, Consolidated Statutes, justice's relief courts; amending several acts relating to the St. John Falls and River extension railway; amending the act incorporating the town of Grand Falls; amending section 29 of the supreme consolidation act; to authorize Fredericton to issue debentures for certain purposes; granting to license land in the town of Chatham; were agreed to.

Progress was reported on the bill authorizing the town council of Chatham to issue debentures for the sum of twenty thousand dollars.

Mr. Tweedie re-committed bill to consolidate and amend the public health act and acts in amendment thereof. Mr. Black objected to taking away from municipal councils the power of appointing the chairman of local boards of health and placing that power in the Provincial Board of Health. He claimed that as the chairman largely controlled the expenditure, which had to be paid by the ratepayers, it was not fair to place the right to appoint. Mr. Tweedie said the section to which the honorable member objected had been carefully thought out, and the proposal contained therein was intended to be a benefit to the public.

The public accountants committee met on Saturday morning and in the evening, and went over the expenditures on the Asylum for the Insane, legislative buildings and bridges. There was some talk over Mr. R. J. John's charges, which were \$75,000 for the year ending Dec. 31, 1897. He was paid \$75 for his work on the legislative building and has a claim for \$361. Mr. Willard Kitchen's contract for work on the legislative building was \$29,000. The amount to be paid to Mr. Pinder said J. C. Campbell was the contractor for the building of the Danlop bridge, York County, that he had been awarded the contract for the same work done and the material furnished by him, which had been used by a sub-contractor who got all the papers and contracts of the work upon Danlop bridge. Mr. Pinder said he regretted that there was an official communication from Mr. Campbell, to whom the contract had been originally let, stating that he had submitted the work, and requested that his success be made known to him.

Mr. Pinder then said he knew nothing about the transaction.

March 14. - Mr. Fowler withdrew his notice of motion regarding the University of New Brunswick. The bill to incorporate the Alexander Gibson Railway and Manufacturing Company, with power to issue debentures for two million dollars, was before the corporation committee on the 14th inst. It was read twice and one o'clock to-day and was adjourned for further consideration until the evening. Col. H. H. McLean was present in behalf of the bill.

The municipalities committee resolved to recommend a bill authorizing the board of school trustees of St. George to issue debentures, but a paragraph was inserted providing for an annual assessment to provide for a sinking fund.

(Special to the Advance.) Fredericton, March 15. Mr. Wells said he rose to a question of privilege he had in regard to the bill for the University of New Brunswick. The statement, it was even said, that Mr. Fowler was unable to find a second bill to place himself in the gap. He (Wells) did not think that he had placed himself in the gap, anyway he had, for about ten years been a teacher in common and superior schools in the province, and he had been through our educational system. It had been his opinion for some years past, that the University was not performing the work it should do considering the large provincial grant which it received. He had reported would seem to indicate that the hon. member, Fowler, had had some difficulty in finding a second, he did not know about that, but he would say that the (Wells) had offered to pass a motion to amend the act at the time it was made.

Mr. Barnes - I offered to second the resolution.

Mr. Wells said he had neither been coaxed nor persuaded by Mr. Fowler to second the resolution, when it is considered that it would cost him over one thousand dollars for every graduate.

Mr. Pitts - I rise to a point of order. I do not object to the hon. member making an explanation, but when he proceeds in the vilify the college, I object, unless I am given the right to reply.

Mr. Wells - I was simply explaining why I seconded the resolution and stating that the Globe had no reason to draw the inference that I had consented to stand in the line of the hon. member.

Mr. Wells - I was simply explaining why I seconded the resolution and stating that the Globe had no reason to draw the inference that I had consented to stand in the line of the hon. member.

Mr. Black - This has nothing to do with a question of privilege, if the hon. member were to discuss it, I think he would be making a very unfair advantage in making these remarks on a question of privilege.

Mr. Speaker - The hon. member should say and confine himself to the question of privilege.

Mr. Wells - I was going to say that I thought my privilege and duty to second this resolution and let it come before the House, and I do not think I placed myself in any gap in doing so, nor was I solicited by Mr. Fowler to second the resolution for him.

Mr. Stockett if the hon. member felt that it was a duty incumbent upon him in consequence of holding these views, to second the motion. He should not have resorted to this course.

Mr. Chipman said he would like to raise a real question of privilege which should be brought to the notice of this House. This morning every member has had placed upon his desk, a journal, published in London, England, called the Colonist and India, and he found in that journal a statement which tended very much to injure the credit of the Province. This erroneous statement would be circulated throughout the United Kingdom and all the colonies and islands, and he found in that journal a statement which tended very much to injure the credit of the Province. This erroneous statement would be circulated throughout the United Kingdom and all the colonies and islands, and he found in that journal a statement which tended very much to injure the credit of the Province.

BAKE A BATCH OF BISCUITS. With one quart of flour, two teaspoons of baking powder, and one teaspoonful of salt, mix and roll out on a floured surface. Bake in a hot oven for fifteen or twenty minutes. These biscuits make a delicate breakfast or a quick snack for fifteen or twenty minutes. The secret of success in this recipe, as in others, is to use but two-thirds as much Cottole as you use to use of lard. Cottole will make the biscuit light, delicious, wholesome. Better than any biscuit you ever made before. Try it. Be sure and get genuine Cottole. Sold everywhere in time with trade-mark "Cottole" and "sterilized in cotton-plant wreath" on every tin.

Make Old Dresses New! Diamond Dyes the Simplest and Easiest Way of Home Dyeing. THEIR GREAT SUPERIORITY OVER ALL OTHER WAYS OF HOME DYEING - A TEN-CENT PACKAGE WILL COLOR FROM ONE TO FIVE POUNDS OF GOODS - COLORS THAT WILL NOT WASH OUT IN STRONG SOAPWATER.

Success in home dyeing depends wholly upon the kind of dye used. With Diamond Dyes, if the simple directions on the package are followed carefully, and the special dyes for cotton are used for cotton and mixed goods, and the wool dyes used for wools, there is absolutely no chance of failure.

AYER'S Cherry Pectoral. CURED BY TAKING. I contracted a severe cold, which settled in my lungs, and I did not know where to turn. I have fast recovered. I was cured by Ayer's Cherry Pectoral. After taking a few doses my cough ceased, and the inflammation in my lungs was cured. I have since used it as a preventive, and I have never since had a cold.

AYER'S Cherry Pectoral. CURED BY TAKING. I contracted a severe cold, which settled in my lungs, and I did not know where to turn. I have fast recovered. I was cured by Ayer's Cherry Pectoral. After taking a few doses my cough ceased, and the inflammation in my lungs was cured. I have since used it as a preventive, and I have never since had a cold.
