The big run of salmon has gone up river it was the largest run that has been for some years and their was large catch in the weirs.

The wandering Hobos have been very plenty here this week one old man who was not in his mind has been wandering around here for the last week with no clothes on but an old coat and cap, people gave him clothes, but he would go to the woods and hide them. One of them stopped on Samuel Anderson's platform last night and Samuel had a hard time driving him off.

Herring are very scarce here this week.

The roads are in a very bad condition commencing at Pocologan Bridge and going westward the McLean road is all bogged the small bridge on the Dougherty road is rotted down, and it is impossible for teams to get to the house, the Snider Hill is run out, it is almost impossible to get over the bald ledges between Samuel Anderson's and the Snider place from Pocologan Bridge to the school house it is almost impossible to get along with horse and wagon, at the stone wall it is in a terribly dangerous condition no railing or nothing to keep a team from going into the sea if an accident should happen to them going up the hill. It is time something should be done to improve them, the last Government went out of power on the road act it may happen again.

Joseph Kierstead of Lubec Me., on Friday ran against a bear and four cubs in the woods and she came so close to him that he had to take to a spruce tree, and if Samuel Anderson had not come to his rescue with the rifle she would have fetched him down in a short time and uncle Sam would have lost one good man.
