

British Government Considering Scheme of National Insurance To Cover Losses Caused by German Aircraft

MUNITIONS BILL PASSED BY HOUSE OF COMMONS

Premier Asquith announces Gov't will indemnify people whose property suffered by Air Raids — Scheme for "Pooling" of Salaries by Ministers aired in the house and Discountenanced by Premier.

London, June 8.—Premier Asquith announced in the House of Commons today that the British government was considering the initiation of a national insurance scheme to cover the losses inflicted by German aircraft.

The Premier made this statement while replying to a number of questions relative to the damage done in the recent German air raids. "Relief will be granted in all these as well as in previous cases," said Mr. Asquith.

London, June 8.—The rather novel project of pooling their salaries, recently agreed to by the members of the new coalition government, by which each Secretary's yearly income will be about \$21,000, instead of some receiving \$25,000 and others \$10,000 or less, was sharply criticized in the House of Commons today during consideration of the salary for the minister of Munitions.

Davison Dalziel, Unionist, took the stand that if the secretaries thus distributed their pay they were altering the amounts fixed by parliament without the consent of parliament. Sir Arthur B. Marquand, Liberal, took a similar view, saying it was a question of the "division of spoils" to which he strongly objected.

Home Secretary Simon defended the arrangement, saying it was in every respect a domestic agreement among the men concerned, and he thought it was insidious to inquire into the matter.

Premier Asquith announced that he listened to such a discussion with surprise and pain. The only question before the House was whether the

AUSTRIAN ARMY ARRIVES AT LUBACZAW

Berlin, via London, June 8, 5.45 p. m.—Gen. Von Linsingen, in his advance from Przemyśl in the direction of Lemberg, has reached Lubaczow, 45 miles northeast of Przemyśl.

This information was contained in the official report given out at German army headquarters today.

The official report follows:

"Western theatre of war:

"An attack by the enemy on the southern slope of Lorette Hills failed completely. The French refrained from making further attempts to attack. South of Neuville an attack by the enemy was prevented by our artillery fire.

"In the region southeast of Hebuterne the battle continues. An attack northwest of Soissons, at Monin-Tourvent, has been brought to a standstill by our counter-attack. At Villa-Au-Bois, northwest of Berry-au-Bac, the enemy suffered heavy losses in an unsuccessful attempt to recapture the position lost in May. A flying machine of the enemy was shot down.

"Southeastern theatre of war:

"East of Przemyśl the general situation is the same. The number of prisoners taken by the army under Gen. Von Mackensen since June 1, amounts to more than 20,000. In the hills near

THROUGH FREIGHT SERVICE BETWEEN CANADA AND RUSSIA

Arrangements Completed between C.P.R. and Russian Government first step towards extension of trade between the two countries.

Special to The Standard.

Ottawa, June 8.—The agreement between the Russian government and the C. P. R. for a through freight service between Canada and Russia, as announced officially in Petrograd today, is undoubtedly the first step towards a greatly increased trade between the two countries. The agreement encourages trade with Russia by removing hindrances hitherto in the way of importers and exporters.

The trade between Canada and Russia, for the fiscal year ending March, 1913, was \$3,066,734, or more than three times what it was in 1909. The increase in the last two years is also known to be very substantial. In the year preceding the war nearly \$2,000,000 worth of farm implements were exported from Canada to Russia.

The great trouble has been lack of transportation facilities. In 1913 out of \$2,145,000 worth of exports sent to Russia no less than \$2,017,560 worth went through the United States. While 18 foreign ships brought 69,465 tons of merchandise from Russia to Canadian ports not one vessel left a Canadian port bound for Russia.

The most important campaign ever undertaken in Canada, said President E. G. Henderson, in introducing the report of the "Made in Canada" committee, which was read by Secretary G. M. Murray. The report showed that the committee in charge of the campaign had restricted their newspaper campaign to 144 publications, having a combined circulation of more than 2,500,000.

The campaign cost, in all, \$25,902.17. It was suggested, at the conclusion of the report, that the phrase, "Made in Canada," be copyrighted for those actually participating in the Canadian campaign.

The report was adopted. Mr. D. Campbell, of Preston, advocated a national teaching of the "Made in Canada" principle, as was the case in Germany. Other speakers strongly advocated the continuance of the campaign under the auspices of the Canadian Manufacturers' Association.

ENDORSEMENT OF MADE IN CANADA CAMPAIGN

At opening session of Canadian Manufacturers' Association annual meeting — National Teaching of the principle advocated.

Toronto, June 8.—The "Made in Canada" campaign, and the plans of the Export Association of Canada, were the main features of the deliberations of the Canadian Manufacturers' Association, which opened its annual meeting here today with 225 delegates present. Both patriotic movements received the hearty endorsement of the meeting.

Home-happiness and Good Food

are so closely related that a proper start in the kitchen is of the greatest importance.

Beginners, as well as experienced housekeepers, to be sure of good, healthful food, should carefully study the label and use only a baking powder shown to be made of cream of tartar.

ROYAL Baking Powder

makes the finest and most delicious food, and its use is a safeguard against baking powders made of alum and offered as substitutes simply because they cost less to make.
