DOMINION PARLIAMENT. AMERICAN WRITER ON BOER COURAGE AND HONOR.

Writing from Kimberley to the Daily Mail, Julian Ralph, the American author, expresses some pretty plain opinions on Boer honor and integrity. He says:
As I sit here the air of every British community and household throbs with the jubilation of the moment.
After five months or more of almost continual check, defeat and slaughter, victories have piled themselves upon us. Kimberley and Ladysmith are free, and Cronje, the chief guerilla opposed to us, is in our net. Bloomfontein has been occupied and the Free State Boers are re-

where the Boers shelled the funeral cor-tege of George Labram—who made the big gun for the town—at dark, later than they had ever shelled the town before. Spion Kop is where they shot a doctor while he was bandaging a wounded man. At many places they fired on our ambu-lances. I saw them do it at Modder River. And I saw them fire on our stretcher bearers in that battle time and time again. There is never an excess of poetry in war, but one phase of it that was senti-

His so-called "farms" are as nature made them—merely reaches of veldt on which his cattle graze. On each one he had put up a home, but its surroundings are almost invariably more repellent and disorderly than any his neighbors that the British had beaten the Boers in that fight. The Boers had the Boers in that light. The Boers had posted an announcement that they had won a victory there and had also taken De Aar, with its million pounds worth of army stores. I had seen and heard sufficient to fill this page of the Daily Mail with accounts of their cowardly and dastardly behavior before I came to Kimberley, but here I find that they have been guilty of different and original enormities.

Here they killed our wounded and laid their bodies in a row after one of the their bodies in a row after one of the forays out of the town. And here they armed many of the blacks to fight against **us**, showing all the world how scandalous by fraudulent were their exclamations of horror at the idea of our employing native Indian troops in this war-a step we never even discussed. We have heard from Natal and from Colesberg of their arming their black servants and employing ing them to fight us, but this I have mere-ly read of-mote seen or got at first hand. SUNNY WOMEN.

Who has not known the woman whose disposition is described by that one word "sunny?" There's always a laugh lurking on her lips. Her cheeks are ever ready to dimple in smiles. Her house-hold influence is as brightening and stimulating as the sunshine. Nothing can be crueler than to have this sunshine blotted out by disease. But this is a common cruelty. The young wife who was the sunshine of the home becomes its shadow. Every young wife should know the value of Dr. Pierce's Favorite Prescription in the protection and pres-ervation of the health. It promotes regularity, dries the drains which enfee-ble body and mind, and cures inflammable body and mind, and cures inflamma-tion, ulceration and female weakness. It nourishes the nervous system and gives to the body the balance and buoy-ancy of perfect health. It is a strictly

"I had suffered about twelve years from female weakness and I had almost given up, thinking there was no cure for me. Then I heard about Dr. Pierce's medicine and thought I would try it, and can say that seven bottles of your 'Pavorite Prescription' made me well. I am now able to do my own housework. I took about twelve bottles in all of Dr. Pierce's medicines. Took some of the 'Golden Medical Discovery.' 'Favorite Prescription' and some of the 'Pleasant Pellets' Mathematical Doing.
