ÆSTHETIC ATTRIBUTES OF ACADIA. BY I. ALLEN JACK, A. B.

(Concluded.) Among the dearest though less sparkling gems of Literature there are few examples which touch the heart strings more than those in which decayed prosperity i pictured, and I have somewhere seen a painting in which, if we apply the best interpretation which actual facts suggest, the same idea occurs. The scene is laid in twilight and banks of clouds are cles n round a flush of light beyond the far horizon which seems more distant by contrast with the shadowed hills. Between these hills and the immediate foreground lie of shadow and falling night and darkness pervades the whole. In the center, reflected from the single piece of cloudles, sky, appears a lumined space of water and there, in bold relief, stands an Indian in his
