## SENATE'S AMENDED LIQUOR BILL COMES UP TODAY

## CARPENTERS, JOINERS AND WOODWORKERS WITH US

FOR ITS THIRD READING (Special to The Record)

OTTAWA, June 19.—The prohibition bill, as amended in committee by the senate yesterday, will, it is expected, this afternoon, come up for the third reading. To all intents and purposes the bill, as it left the commons, has been killed by the upper house in committee, inasmuch as restrictions are limited for the period of the war. The effect of the amendment is the same as though no legislation has at present been introduced.

The order in council had been allowed to die a natural death, with the expiry of the War Measures Act.

The vote yesterday was recorded, being taken in committee, but another vote will probably be forced on the third reading this afternoon. Opponents and advocates of the measure were pretty divided and the vote was a non-party one. There was a pretty full representation in the chamber and it is not expected that the majority of ten, obtained by the antis, will be overturned to-day.

It is almost certain that the commons will refuse to concur in the senate's amendment and a conference between members of the two houses may result.

If the will of the senate prevails, then the signing of peace the embargo against the importation of liquor from outside Canada, against the manufacture of liquor within Canada, and against inter-provincial traffic will be lifted. Jurisdiction will remain wholly with the provinces, with the Doherty Act on the statute books to permit any province to prohibit the entry within its borders of intoxicating liquors intended for a purpose which is deemed illegal in such province.

Sessions Formally Opened This Morning.

The eighth annual convention of the Provincial Council of the United Brotherhood of Carpenters and Joiners was opened in the Trades and Labor Hall this morning. The sessions will be continued for the rest of the week in the City Hall.

A fitting welcome to the attendants who come from all over the province was given by Mayor Gross and others, after the formal welcome to the brothers by President O. Hughes of the local T. and L. Council. Mayor Gross in extending the city's welcome, said that this was the busiest city in the Dominion. The reason was the fact that there is cooperation here between the employer and employee.

President N. M. Davidson, of the Board of Trade also expressed welcome on behalf of Board of Trade. "At present and it is very proper that it should so continue here we are more like brothers," he remarked.

Mr. C. H. Mills, M.P.P., also expressed pleasure in being able to address the members who had come from all ends of the province. He said that the purpose and aims of the organization deserved support and recognition. To have the convention in this city was an honor not only to this city but to the whole district. He felt certain that important questions which would come up would be considered and dealt with in the right way by the organization. He wished them a very successful convention.

**Resolution on Medical Profession**

President Peter MacCallum of Toronto presided at the meeting. Several important resolutions have been presented which will be considered at the sittings. Among these is one recommending the nationalizing of the medical profession. Secretary T. Jackson is present.

Prominent men are expected to be present at some of the sittings, including Mr. Allen Studdholm, M.P., of Hamilton, Organizer James Martell of Niagara Falls, Arthur Martelle of Montreal, one of the members for Canada on the General Executive; Tom Moore, President of the Trades and Labor Council of Canada.

Another matter that will come up will be the standardization of wages and working conditions among woodworkers.

It is of interest to state that the organization in America has 350,000 members and during the last year paid about \$80,000 to \$100,000 in death and sick benefit claims.

**IF SENATE CHANGES STAND IT WILL RESTORE SALES**

SAYS W. S. DINGMAN OF LIC-ENSE BOARD (Special to The Record)

TORONTO, June 19.—In an interview this morning regarding the effect of the senate's action on the sale of liquor in the province of Ontario, Vice-Chairman Dingman of the License Department, said: "The effect will be to reinstate the conditions as they were previous to the order in council of March 1918, as soon as the promulgation of peace. That means that people who have private dwellings, falling within the definition of such in the Ontario Temperance Act, can import liquor from other provinces or from other countries.

The Ontario Temperance Act did not prohibit that class of trade, it not being within the power of the province to prohibit such.

"It might say, however, that the conditions to which we shall return with the expiry of that order in council will be modified by an amendment to the Ontario Act, which was passed at the last session against liquor advertising within the province."

**TEMPERANCE MEN WOULD AVOID SENATE**

TORONTO, June 19.—The senate cannot be and must not be allowed to stand in protection of an evil like the liquor traffic," said Rev. Ben Spence, of the Dominion Alliance to-day, in discussing the senate's action in amending the federal prohibition legislation. "The liquor traffic must go and if the senate is necessary to complete the job then the senate must go. It is unthinkable that 34 men can stand between the people of Canada and what the people of Canada want. The unreasonableness of this thing is the perplexing feature.

"It is an arbitrary and irresponsible chamber," said W. E. Roney. "There are undoubtedly many good men in it but the action is just another argument for the abolition of that body. We have no use for the secret chamber except to make trouble. There should be a popular election of members to the house of commons pledged to memorialize the imperial parliament to change the British North American Act in to abolish the senate. It is not representative of popular opinion. I believe in government by representation."

**SITUATION AT PEG COMMITTEE'S REPLY**

STRIKERS HAVE NOT PROTEST-ED AGAINST ARRESTS

WINNIPEG, Man., June 19.—The strike committee through James Winnie, president of Trades and Labor Council, disclaims ever having received a statement conceding collective bargaining. The principle signed by the metal-trades employers, managers of railway companies, six members of mediation board and Senator Robertson, we desire to publicly announce that up to the present time we have never received such proposals from any party signing this document. We are at a loss to understand the movement behind that publication and can only assume that it is another attempt to make the public believe that the strike committee is not anxious to sign a settlement of the present dispute.

"Any avenue that may open that promises a road to settlement of the present dispute had never been, nor ever will be ignored by the strike committee. This announcement of course, might be construed as an invitation to some one to put the ironmaster proposal forward, but we have no intention of making it easy to declare a settlement without loss of prestige to me. However it looks unlikely that the strikers will return to work, with Russell and Iven in durance vile, and while thousands of their numbers are shut out of the civic, provincial and federal services and also by private employers.

Perhaps, one of the most significant and surprising facts, is that the strikers have never formally protested against the arrests nor appealed to the Canadian people to see that justice is done. Nor can it be overlooked that the brotherhood of railway carmen of America has decided to call off the sympathetic strike because they believe the strike has been won, and that two other leagues here may follow suit.

The C.N.R. protective board has gone on record as favorable to the ironmasters' proposal; the striking carmen of the C.P.R. have also urged a settlement on that basis, intimating that they intend to take such action as they deem advisable.

R. B. Russell was agent in Canada of the railway shippers, who were to have gone on strike yesterday and press dispatches intimate that a strike of forty thousand shippers was being engineered from Winnipeg. On day of Russell's arrest, the president of the shippers went to Atlantic City, after postponing the strike. Dispatches now say that Atlantic City the president of Brotherhood of Railway Carmen promised to support the pending strike of shippers in Canada. It must be remembered that sympathetic strikes by railway shippers, are illegal from an international standpoint but the Canadian-wide strike that is threatened would be legal and would legalize the partial sympathetic strike now in progress.

Riot insurance of an aggregate value of between \$50,000 and \$80,000,000 has been taken out by Winnipeg firms and individuals. The largest individual account is for \$4,000,000. Two underwriting firms are each carrying policies aggregating \$18,000,000. For two weeks under writers have refused all applications for riot insurance.

Alderman Heaps, now under arrest, was chairman of a Winnipeg Housing Committee, which, however, was inactive.

**BUDGET CARRIED WITH 50 MAJORITY EARLY TODAY**

MCMMASTER AMENDMENT DEFEATED BY 51

OTTAWA June 19.—Final figures on vote on the budget which took place in the commons at 2:30 this morning, establish the government's majority at fifty, as recorded on the budget as a whole. The voting was 120 to 70.

The debate was concluded at 2:30 and the division bells immediately rang in the members from the corridors. On the amendment submitted by Mr. D.D. McMaster, a vote of 70 for and 121 against was recorded.

**MR. W. D. EULER SUPPORTED BUDGET**

Fifteen Unionists voted against the government on the budget issue. They were all westerners except Hon. W. S. Fielding, Mr. Pardee, of West Lambton, and Mr. Cockshutt, of Brantford. Cockshutt voted with the government against the McMaster amendment, but against the government on the budget, presumably in both cases on account of his high protectionist principles.

Oppositionists who supported the budget were Mr. McCrene, of Sherbrooke, and Mr. Euler, of North Waterloo.

At 1 a.m., previous to the vote being taken, Hon. Mr. Fielding, former minister of finance, made a castigating attack on the present minister of finance (Sir Thomas White), who he said as one of the Noble Eighteen, in 1911, cried: "No truck nor trade with the Yankees," and defeated reciprocity in nineteen eleven, but reduced tariff to same level in nineteen nineteen.

While the concluding speeches were being delivered, by Colonel Arthur and Colonel James Beck, V.C., Opposition members were in the corridor singing: "Pack all your troubles in your old kit bag," and other popular songs, while the government whips were making their last efforts to steady the recalcitrant western members.

**TORONTO LABOR MAY PROTEST ARRESTS**

TO MEET ON SUNDAY AFTER-NOON

TORONTO, June 19.—The Trades and Labor Council will, at its meeting to-night, consider the request of the district council of the carpenters union that a mass demonstration meeting of all trades and labor men of the city be called by the trades and labor council for Sunday, June 22, to protest against the arrests of labor leaders in Winnipeg.

**METAL-TRADES STRIKE MAY BE SETTLED**

TORONTO, June 19.—Lee has been broken for the settlement of the metal-workers' strike in Toronto, affecting 700 men." This follows the offer of one of the largest manufacturers concerned to give men an 8-hour day and conceding the principle of collective bargaining. This is all the men have asked for.

Labor leaders to-day say the offer augurs well for the early settlement of the strike, as other firms will follow.

**\$1,000,000 Elevator For Ontario**

TORONTO MAY GET IT

OTTAWA, June 19.—The Agricultural Committee of the House having brought in a recommendation that an item not exceeding one million dollars be placed on the estimate and made available for the construction of an interior terminal elevator in Ontario, Mayor Church is in the capital to-day urging that Toronto be chosen as the site.

He saw Hon. F. B. Carvell, Minister of Public Works and Hon. A. K. MacLean, Minister of Trade and Commerce, and urged that the report of the committee be adopted.

He told the reporter that the prospects were very bright and that Toronto was likely to be chosen.

**WHAT DRYS EXPECT COMMONS TO DO**

TO SENATE'S AMENDMENT OF LIQUOR BILL

TORONTO, June 19.—Leading prohibitionists here express confidence that the house of commons will fight the senate, in connection with the action yesterday of the upper chamber in amending the bill prohibiting the importation, manufacture and inter-provincial transportation of alcoholic liquors, so as to make prohibition end when peace is signed, instead of twelve months thereafter, as legislated by the commons.

**CONCILIATION FOR STREET CAR DISPUTE**

ACTING MINISTER OF LABOR FAVORS THIS

OTTAWA, June 19.—Mayor Church, of Toronto, to-day saw Hon. A. K. MacLean, Acting Minister of Labor, in connection with the Toronto street railway dispute and told him that the ordinary board of conciliation had failed to be appointed. Mr. MacLean then asked him to nominate two representatives for the men, who would consider their claims, with two men appointed by the company. Mayor Church suggested the name of David Carey as one of the two men's representatives in the new board. He afterwards visited F. A. Aeland, Deputy Minister of Labor, in connection with the matter.

"I am sympathetic to the men," he declared Mayor Church. "They showed loyalty to the city in not going out on a general strike two weeks ago. They have the support of the city who will see that the company finds the money to pay the increase in wages. Impartial investigation of the books of the company would show them in a position to

**PREPARING FOR SHOE EXHIBIT**

Preparations for the big shoe and leather exhibition in this city from July 21 to 26 are underway and the matter is getting into good shape.

The committee who have charge of the event are leaving nothing possible undone to ensure good results. Attention to the big exhibition, the first Canadian shoe and leather exhibition of its kind in Canada, the trade far and wide have had their interest aroused and the retailers and other buyers are now looking with eager anticipation to the event.

The exhibition will be held in the auditorium which is well suited for the purpose and is so centrally located. Space for exhibit has been allotted in such a way that there will be between thirty-five and forty booths on the main floor. It is hoped to fill all with shoe manufacturers' exhibits, with the exception of the centre of the floor, which may be used for some demonstration of manufacturing. Space for findings and accessory firms and any other surplus of shoe manufacturing companies will be provided in the balcony at the sides.

The details of putting the booths into shape are in the hands of the local executive. Special attention will be paid to the shipments as the articles which will be shipped to the auditorium for exhibit. A special man will be retained for the purpose of looking after the same.

Regarding the attention that the exhibit is receiving by the trade some idea is gathered from the interesting references and illustrated articles that appear in the trade journals. Both Footwear and the Shoe and Leather Journal contain descriptive articles on the coming exhibition and on the manufacturers in this city.

"Notice of location" is a technical term by which a man is notified that he can no longer preach as a minister of the Methodist Church, and that he gives up the standing and functions of a minister conferred on him at his ordination.

The only reason given for this action was that Mr. Ivens was not willing to devote himself to the work of a Methodist minister.
