Engineering Week Activity Schedule

Although its called "Engineering Week" all the events planned by the Engineering Undergraduate Society, the details of which follow, are open to anyone on campus. "Engineering Week" is organized in an effort to bring together the seven subfaculties of Engineering which include Civil, Chemical, Electrical, Forest, Geological, Mechanical, and Surveying Engineering. Members of the EUS have worked long and hard in an effort make Engineering Week 1984 the best yet and they invite both engineers and non-engineers to participate. Here's what's happening:
