the harvest, how wide and fruitful the waving cornfields. The cli-
max and fruits of the victory are sinners lifted from hell to heaven,
yea, even Immortality and Eternal Life. What a grand investment
for the rich! May God increase your funds to aid in this noble soul-
saving work, and may the world soon be brought to the feet of Jesus.
Last week I visited forty-one families and distributed six hundred
tracts. Dear Mr. Archibald, go forward in your work; my soul is
filled with enthusiasm when I think of the achievements and victories
you may win for Christ. May God bless you with every prosperity
and His richest grace is my earnest prayer."

Rev. E. N. Archibald, P. E. Island, informs us that tracts sent
him for distribution were productive of great good in the needy
sections in which he labours. One tract in particular was perused
by a young lady twenty times; through it she was brought into the
light and liberty of the Gospel. He expresses his deep sense of
gratitude for the invaluable assistance the Society has given him
during the year, not only in liberal grants of tracts and papers and
Sunday School books at reduced rates for Mission Schools, but for
Mr. Secord's work in visiting the homes of his people, combining
Evangelistic work with the sale and gift of choice publications.

Mr. John Grierson, Missionary to Seamen in the port of Halifax,
reports:—"Thanks chiefly to the British American Book and Tract
Society, I have been enabled to circulate during the past year as
follows:—

31,550	Tracts in English	343,691	pages.
4,039	" in ten Foreign languages.	39,706	"
35,589	Total tracts.	383,397	pages.
746	Magazines and Religious Weeklies.		

"During the year 3751 Steamers, Barques, Brigs, Ships and Schooners,
containing 41,696 men, have entered this Port. To all of these,
with rare exceptions, I have made one visit, and to many of them
several. In this number there were at least 2000 different vessels
and 25,000 men."

GRATUITOUS DISTRIBUTION.

In addition to the grants amounting to \$913.85 made by Colporteurs
as already referred to, books and periodicals valued at \$113.43 have
