Patent Poultry Netting

is the only poultry net-
ting that can be success-
fully stretched without
rails at top and bottom.
This is so because we use
strong, heavy wires at
top, bottom and through
the middle. Note the
graduated meshes, run-
ning from 1 1/2 in. at bot-
tom to 3 in. at top. Keeps
in the fowls, big and little,
and keeps out their enemies. Not
slimy in any particular, but a
strong, heavy, desirable net-
ting. We also make lawn and

BULL-STRONG!

....PIG-TIGHT....
An Illinois farmer said that after
harvest he had fully 200 bush-
els of loose oats on the ground
that he could not secure any ben-
efit from, because the fence
around the field would not turn
hogs. Figure the loss for yourself.
He also said, all this would have
been saved if he had used the
Kitselman Woven Wire Coiled
Spring Fence, and the value
would have gone a long way
towards paying cost of the fence.
With the Duplex Machine
any farmer can make it himself
at the same cost of the wire.
