The EDISON PHONOGRAPH

YOUNG and old can enjoy an Edison Phonograph, but if there is any choice, it is especially the children's entertainer.

What human entertainer, what mother or nurse doesn't become tired of singing a song over and over, of telling a story again and again at the demand of a group of interested children?

The Edison Phonograph never gets tired; it will keep the children amused for hours, but an Edison Phonograph bought for the nursery pretty soon finds its way to the drawing-room because the grown-ups are not content to allow the children to have all the fun.

That is why an Edison Phonograph should be in every home. Because it entertains the whole family, it can be enjoyed by the entire family circle at once. It is just as good on popular music as it is on classic music. It is easily used. It plays for all.

Edison Amberol Records

A new Record has been made for the Edison Phonograph which plays twice as long as the old one.

All owners of Edison Phonographs can have an attachment put on their present Phonographs which will play the new Records. All new Phonographs are now made to play both the two-minute and the four-minute Records. You can have both kinds of Records, and thus have a very wide range of music. The four-minute Record is especially good for long pieces of music, too long to be played on the shorter Records, and also for dances, accompaniments to songs and things of that kind.

Your dealer has the Edison Phonograph with attachment, and he has the new Amberol Records which he will be glad to play for you.

FREE. Ask your dealer or write to us for illustrated catalogue of Edison Phonographs, also catalogue containing complete lists of Edison Records, old and new.

We Desire Good Live Dealers to sell Edison Phonographs in every town where we are not now well represented. Dealers having established stores should write at once to

BUY IDEAL FENCE

YOU should build fence like you make other permanent improvements. Tinkering does not pay. Fences made of light wire, and wires that break rather than give when it gets cold; fences that an unruly animal could break through; fences not properly stayed—these are not paying fences. Ideal fence is the right kind. It is made of No. 9 hard steel wire from top to bottom, and is heavier and stronger than any fence on the market. Remember, it costs no more to dig your post holes, set your posts, stretch your fence and staple it when the heavy Ideal fence is used than for a light, flimsy article. And notice how the Ideal fence is locked at every crossing. It is heavily galvanized to keep off rust. Adapts itself to extremes of heat and cold, and always presents a handsome, well-stretched appearance. It pays to study the matter over thoroughly before you buy any kind of a fence. Our little fence book gives you all the pointers. Write us today for free copy.
