

The Bissell Out-Throw Disk Harrow

To settle all doubt about which is the BEST OUT-THROW DISK HARROW, we ask you to test the "Bissell" Out-Throw in a field competition with other Out-Throw Harrows.

The "Bissell" Out-Throw has many features that have made the name "Bissell" famous in connection with Disk Harrows. It has plates of the correct shape. One gang is set slightly ahead of the other. The gangs cannot crowd or bump together and cause the Harrow to rock when you come to hard soil—a new feature in Out-Throw Harrows. The hitch is well back, the draught is light and there is no neck weight.

The machine in actual use is our best advertisement. No need to send special travellers to sell the "Bissell." We put our name on every Harrow. If you would like to learn more about Disk Harrows, send to Dept. W for free booklet of both out-throw and in-throw styles.

DE LAVAL CREAM SEPARATORS

Merit Confidence

CONFIDENCE is one of the most important and satisfactory considerations in every act and interest in life.

There is nothing the dairy farmer buys that is of as great importance to him as the cream separator, which SAVES or LOSES money in quantity and quality of product every time he puts milk through it, TWICE A DAY, 365 DAYS IN THE YEAR, and lasts from six months to twenty years according to the durability of the machine.

Hence the importance of only making so serious an investment with COMPLETE CONFIDENCE that you are buying THE BEST and that which will LAST LONGEST.

Every man who knows what a cream separator is knows that this is true of the DE LAVAL, the original and for thirty years the "WORLD'S STANDARD" cream separator. Somebody may CLAIM as much for some other separator, but no buyer can possibly have equal CONFIDENCE in its being so.

HACKNEY AUTO PLOW

EVERY farmer realizes the importance of "quick action" at seeding time, and knows that delays at that particular time are very costly. The whole crop may be ruined through not being able to secure help or the sickness of or an accident to the horses.

The Hackney Auto-Plow solves all such problems satisfactorily. It will not only do the seeding when the soil is in the best condition, but also the

PLOWING, DISCING, HARROWING, HARVESTING, THRESHING, ROAD GRADING, WOOD SAWING, FEED GRINDING,

and all other work where power is required. It is a strictly ONE-MAN machine, a tireless worker night or day, rain or shine, and there is no "hold-up by the hired man" for the farmer who has a Hackney Auto-Plow. Its successful performances in all parts of the country, in all kinds of soil, and under all sorts of conditions proclaim it the greatest labor-saving device for the farmer ever invented.
