

Know the weight of what you buy or sell

Wagon Scale, 4 wheels, 2000 lbs. capacity.

Every farmer should own a **SCALE** that will insure protection against loss when selling or imposing when buying his many farm products or supplies.

Constant watchfulness for little business "leaks" is necessary for farming success.

Large losses must be stopped first, but it doesn't take long for a few trifling leaks, here and there, to become large losses too, in the aggregate.

It is not an uncommon thing for a buyer's scale to "weigh short" 5 per cent., while it occasionally happens that the shortage reaches 7 or 8 per cent.

Let us see what it means to you if you get cheated even so little as the lowest estimate, 5 per cent. If your total grain sales were \$1000.00 yearly, 5 per cent. short weight would mean a loss of \$50.00; on \$400.00 worth of poultry the loss would be \$20.00; on \$200.00 worth of butter it would be \$10.00; on \$1000.00 worth of other miscellaneous farm produce, sold by weight, \$50.00. This would mean a total loss of \$130.00 from petty shortages in weight on a moderate sized farm. Imagine what it would figure at 8 per cent.

What can be saved in one year would pay for a Chatham Scale several times over. Can you afford to be without one when you can buy a

Chatham Farm Scale

On Two Years' Time, No Cash to Pay until Nov., 1905

A scale is as necessary on a farm as in a store. There is not a day in the year that a farmer doesn't lose some money if he doesn't own one. After the first year a Chatham Farm Scale becomes a **money maker** as well as a money saver, for, having paid for itself in one year, and still making money by saving it, that money goes into the bank and draws interest.

Don't be without a good farm scale, and, while you're about it, get the **best**—the Chatham.

This Scale is made in two styles—two-wheel **Truck Scale** and four-wheel **Wagon Scale**. Both are fully set up, ready for use, when shipped. They are mechanically perfect, all pivots and bearings

being protected from damp and dirt, and the parts interchangeable—and easily replaced. It is the simplest and handiest scale made. Drop a lever and it becomes a strong truck; raise the lever and you have an accurately adjusted, perfectly constructed farm scale.

When the lever is dropped, no weight or wear comes upon the knife edges of the scale. No other farm scale has this feature, by virtue of which our scale averages to wear years before the pivots get dull.

Every Chatham Farm Scale is carefully tested by the Government Inspector of Weights and Measures, and carries his certificate of accuracy.

We have a booklet giving full particulars **FREE**. Send for it to-day.

The MANSON CAMPBELL CO., Limited
CHATHAM, CANADA

Dept. No. 301
Manufacturers of the Chatham Incubators and Brooders and the Chatham Fanning Mill

Distributing Warehouses at Montreal, Que., Brandon, Man., Calgary, Alta., New Westminster, B.C., Halifax, N.S.

AGENTS WANTED. Good men who show evidence of true salesmanship will be offered special inducements.

GOSSIP.

A teacher of a class was disturbed by giggling among certain boys, and called upon one of the culprits to tell him the cause. "Please, sir," responded the lad, "Turner says he knows of a baby who was fed on elephant's milk and gained ten pounds a day." "Turner," said the teacher sternly, "you should not tell lies." "But it's true, sir!" rejoined the pupil. "Whose baby was it?" "The elephant's, sir," replied the lad.

During the period from April 14th to April 16th, 1905, records of eighty-two Holstein-Friesian cows were confirmed by the American Advanced Registry. Seventy-eight made seven-day records that averaged as follows:—Twenty-seven full-age cows: age, 7 years 3 months 19 days; days from calving, 25; milk, 439.1 lbs., quality 3.35; fat, 14.650 lbs. Thirteen four-year-olds: age, 4 years 6 months 5 days; days from calving, 20; milk, 421.8 lbs., quality 3.39; fat, 14.302 lbs. Thirteen three-year-olds: age, 3 years 6 months 3 days; days from calving, 33; milk, 378.2 lbs., quality 3.63; fat, 13.644 lbs. Twenty-five classed as two-year-olds: age, 2 years 1 month 18 days; days from calving, 25; milk, 296.7 lbs., quality 3.3; fat, 9.783 lbs. The cow making the largest seven-day record in the full-age class was 5 years 5 months 2 days old. She produced 484 lbs. milk, quality 3.88; fat, 18.779 lbs. The cow making the second in size was 12 years 26 days old. She produced 479.4 lbs. milk, quality 3.78; fat, 18.136 lbs. The cow making the third in size was 6 years 4 months 7 days old. She produced 421.8 lbs. milk, quality 4.29; fat, 18.085 lbs.

A good anecdote is related of a young minister who was supplying the pulpit of the Wrentham Congregational Church during the absence of its pastor, the Rev. Elisha Fisk, better known as "Priest Fisk," whose pastorate in this church covered a period of 56 years.

Upon opening the Bible, the young minister came across the following notice, which he read: "Mr. Libbius Porter desires the prayers of the congregation, that his loss may be sanctified for his good."

Signs of repressed merriment appeared through the congregation, but the cause was a complete mystery to the young minister, who, upon arriving at the home of Mr. Fisk for lunch, inquired of Mrs. Fisk the cause of the unseemly hilarity.

She informed him that he had read an old notice used by her husband as a book-mark. It had been presented by Mr. Porter a year or two before upon the death of his third wife. Mr. Porter, with his fourth bride, sat in the congregation while it was being read.

QUESTIONS AND ANSWERS. Veterinary.

RETENTION OF AFTERBIRTH

Mare did not expel the afterbirth for 14 hours after foaling last year. She is in foal again. How can I prevent a recurrence?

W. J. P.

Ans.—Retention of afterbirth occasionally occurs under all conditions. We cannot understand why it should be so; neither can we prevent it. Nothing can be done to prevent it, more than seeing that the mare is kept comfortable; giving a warm mash after foaling and taking the chill off the water she drinks. Medicinal agents have practically no effect. In the mare it is a serious condition, and when not expelled in 6 or 8 hours after parturition, it should be removed by hand, and the uterus flushed out with about 2 gallons of a two-percent. solution of creolin heated to 100 degrees Fahr., and introduced into the womb with an injection pump.

ECZEMA.

Dog, eight months old, has had very red and itchy skin for a month.

H. W. A.

Ans.—Your dog has eczema. Get an ointment made of subnitrate of bismuth, 4 drams; carbolic acid, 10 drops; vasoline, 2 ounces. Apply to the skin twice daily. Get the following prescription for internal administration: Sulphate of magnesia, 4 ounces; sulphate of iron, 16 grains; aromatic sulphuric acid, 2 drams; spirits of chloroform, 2 drams; peppermint water, 16 ounces. Give two tablespoonfuls in a little water every morning.

GOOD HEALTH AND SUCCESS

GO HAND IN HAND WHEN THE BLOOD IS KEPT PURE AND RICH BY

Dr. Chase's Nerve Food.

Red blood means health, strength, courage, cheerfulness, power of endurance and a well-nourished brain that likes to accomplish things.

The secret of health is, after all, in the blood, for with an abundance of rich, red blood the nervous system is nourished and sustained, the lungs, heart, stomach, liver and kidneys are filled with the vigor and energy necessary to accomplish their work, and there is no room for weakness and disease.

Dr. Chase's Nerve Food builds up, strengthens and invigorates the whole human body because it actually forms rich, red blood.

Indigestion, sleeplessness, nervous headache, irritability, nervousness, lack of energy and strength and failure of the bodily organs to perform their functions are almost invariably the result of poor, weak, watery blood.

The use of Dr. Chase's Nerve Food completely overcomes these symptoms, and by filling the whole system with new vigor gives new hope and confidence and replaces weakness and disease with health and strength.

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box.

A teacher at Stepney, East London, was giving her class an examination on the scriptural work of the previous three months. Among other questions, the lady asked: "With what weapon did Samson slay the thousand Philistines?" And the girl, jumbling her old and new Testament knowledge, stood up and replied: "With the ax of the Apostles." A woman teacher had been explaining the story of the casting adrift of the infant Moses. "Now, why was it, do you think, that the good mother daubed the little ark boat so carefully with slime and pitch?" "Oh, ma'am," said one little five-year-old girl, "to make the baby stick inside."

CURE THE MOST EXTREME CASES

Stone in the Kidneys Cannot Stand Before Dodd's Kidney Pills.

Mr. S. A. Cassidy, of Ottawa, Permanently Cured After Years of Suffering, by the Great Canadian Kidney Remedy.

OTTAWA, Ont., May 15th.—(Special).—While all Canada knows that Dodd's Kidney Pills are the standard remedy for all Kidney Complaints, it may surprise some people to know they cure such extreme cases as Stone in the Kidneys. Yet that is what they have done right here in Ottawa.

Mr. S. A. Cassidy, the man cured, is the well-known proprietor of the Bijou Hotel on Metcalf Street, and in an interview he says: "My friends all know that I have been a martyr to Stone in the Kidneys for years. They know that besides consulting the best doctors in the city, and trying every medicine I could think of, I was unable to get better."

"Some time ago a friend told me Dodd's Kidney Pills would cure me. As a last resort I tried them, and they have cured me."

"I could not imagine more severe suffering than one endures who has Stone in the Kidneys, and I feel the greatest gratitude to Dodd's Kidney Pills."

If the disease is of the Kidneys or from the Kidneys, Dodd's Kidney Pills will cure it.
