The annual meeting of the trustees and lotholders of Willow Bank Cemeetery Corporation was held in Witter's Hall on Wednesday evening last, J. W. Caldwell, President, presiding.

The Committee of Management re. ported considerable work done within the year, notably the plan of a spruce hedge on the east side of the lot and of willows from the south-east corner of the grounds to the north gate and also

man, Secretary; and J. D. Chambers Treasurer-were re-elected. J. B. Davison was elected surveyor. G. V Rand C. H. Borden, A. J. Woodman C. A. Patriquin, and F. W. Woodworth were elected a committee of management, J. W. Wailace, G. V Rand and J. W. Caldwell were named a like committee on the old burying ground.

A standing regulation to the eff c that two auditors be regularly elected

poration and that so little intrest seems to be taken by the se who have friends buried in those grounds. It is to be hoped that the new blood introduced into the committee of management will stimulate the elder memberate action, and that these grounds may be made a credit to the place rather than a standing reproach as they are than a standing reproach as they are therefore, and the first members of wolfville Division is that the insheries belong to the natives are justified in repudiating the agreement will stimulate the elder memberate which England, unavised, made for them and in taking the affair into their own hands. But unfortunately learned in taking the affair into their own hands. But unfortunately her lands unto God, but professedly it may have to accept what has been sending to the Dark Continent over thrust upon it. than a standing reproach as they are at present. The outlay in the first instance in laying out these grounds and in preparing a plan thereof was considerable, and it is to be hoped that the grounds will be put in such a n as will show some trace of the original design, which seems to be com-pletely lost at the present time.

Where Prohibition is Popular.

ganized by wealthy temperance men for the purpose of founding a prohibition colony in the state of Tennesse.

A large tract of mining and agricultural land was purchased and a site selected thereon for a commercial and manufacturing city. Recently a day and a large traction colony in the state of Tennesse.

A large tract of mining and agricultural land was purchased and a site selected thereon for a commercial and manufacturing city. Recently a day and a large traction and birds but also to the force a single man capable of intoxication. "I will give you half my month's salary," he said to one who implored to be taken back, "but I will not have you on the force."

Christendom has an annual drip, bill the purpose of founding a prohibition of the purpose of founding a prohibition of the heats of horse beating, working missing policemen right and left for drunkenness. He says he will not have in the force a single man capable of intoxication. "I will give you half my month's salary," he said to one who implored to be taken back, "but I will not have you on the force."

Christendom has an annual drip, bill the heats of founding a prohibition of the heats of horse beating, working in the heats of horse beating, working in the heats of horse beating, working in the heats of horse with sore shoulder. Although the heat says he will not have on all you have, leaving them on the original envelope preferred. I also man be salary, "he said to one who implored to be taken back, "but I will not have you on the force a single man capable of the force as the force as the force as the says he will not have on all you have, leaving them on the original envelope preferred. I also want ½ stamps, cut values, or the entire transferred to the force as single man capable of the force as single man capable of the force as single man capable.

The heats of founding a prohibition case to bring the problem of the force as single man capable of the force as single man c half was devoted to an auction sale of human beings. lots in the proposed city which realized 600,000 dollars. The eagerness of the before the schools, and lessons of me bid ding was something unprecedented in the history of "booms." The dren of the schools with good effect dren of the company were obliged to the following officers were cleeked for officers of the company were obliged to instruct the auctioneer to strike off hundreds of lots on the first bid, in orhundreds of lots on the first bid, in order to keep the prices within reasonable limits. The capital of the company is \$3,000,000 and large amounts will be expended in developing the resources of the city. Every lease or deed given by the company will contain a clause forever prohibiting the sale of intexicants on the premises. The avidity with which enormous prices were offered for lots in a town existing only on payer. which enormous prices were offered for lots in a town existing only on paper indicates not only the intense longing of decent people to find some spot uncursed by saloons, but also the confidence of moneyed men in prohibition as the basis of a purely business enterprise. The future of Harriman, as the new city is to be called, will be watched with interest.

A number of interesting subjects bearing on the work of the Society were discussed, and resolutions passed aiming at vigorous work for the present year.

Product of the Mines.

The quantity of coal pained in Nova Scotia last year was 1,756,000 tons. The sales in Nova Scotia have increased from

The Secretary's report showed a considerable increase in the sale of lots over former years, thirteen having been sold since the last annual meeting, leading the more hardened and leading to the considerable are the last annual meeting, leading the more hardened and leading t sold since the last annual meetings realizing the sum of \$195, a portion of which has been paid. During the year there was expended in improvements and care-taking \$118.50, and there was collected \$137.75, leaving a bal ance on hand of \$34.24. There is yet due on lots \$203, which added to the balance on hand makes \$237.24 to the credit of the corporation.

The retiring trust es—D. B. Shaw, J. W. Wallace and J. W. Coldwell—were re-elected. The executive officers, viz.—J. W. Caldwell, President; J. W. Wallace, Vice President; J. W. Wallace, Vice President; J. W. Woods expensively and provided and provided provided for those whose good conduct merits Engineering and punishment or degredation at less desirable uniform will be computed sorts. The Government fish breeding estab.

In this measure was designed to make imparative that before anyone could apply for a position in the Civil Service be should be five years resident in Canada. Sir John Thompson said the principle of the bill was one that ought to be acted upon, namely, keeping positions in the Civil Service for Canadians in preference to others. Sir John A. challenged anyone to show that canada had not been kept for the Canadians as far as the Civil Service was concerned; the House had to remember, to week a wellow and black and punishment or degredation at least two provided for those whose good conduct merits Engineering and punishment or degredation at least two provided for those whose good conduct merits Engineering and all British subjects but the same right here as we had.

Wallace, Vice President; J. W. Oblemens and J. D. Chambers are the principle of the bill was one that ought to be acted upon, namely, keeping look and the principle of the bill was one that ought to be acted upon, namely, keeping look and the principle of the bill was one that

The Newfoundland Trouble.

The excitement in Newfoundland over the modus vivendi, arranged betweek tengland and France on the fisher, question, without consulting the Newfoundland Government, has not abated and has caused a bitter feeling in the island against Great Britain. By the concession France can claim fishing rights over a great portion of the censulting at control which it is not in the interests of the islanders that any foreigners should have. The French claim these rights under a treaty made a hundred very significance of the concession, and prevented justice and control which it is not in the interests of the islanders that any foreigners should have a treaty made a hundred very significance of the concession of the censult of the control of the A standing regulation to the different place to a control which it is not in the hierers of the islanders that any foreigners should have. The French claim these rights under a treaty made a hundred years ago, when Newfoundland was a far different place to what it is now, and the current year.

It was decided that the corporation procure a seal for the purpose of scaling deeds, etc., and J. W. Caldwell was named a committee to procure a device for the same.

As usual the sum of \$10 was voted to the Secretary, after which the meeting adjourned.

It is to be regretted that so few of the lished to fisheries are lotholders finds it convenient to attend the annual meetings of this Corporation and that so little int rest seems to be taken by the se who have
