A Successful Furnace.
A GOOD ARTICLE EFFECTIVELY ADVERTISED FINDS A READY SALES.
McClary's "Sunshine" Furnace in Use From Halifax to Vancouver.
With this issue of THE ACADIAN the McClary Manufacturing Co., of London, Ont., commences their advertising for this year, using a series of attractively illustrated advertisements. One of the series deals with the ashpan feature of the furnace, and this one in particular, can readily be understood. Another ad. describes the large double feed-doors, explaining the ease with which the "Sunshine" furnace can be fed. A third explains the strength and security of the fire pot, while the fourth covers the very important fact that the "Sunshine" burns any kind of fuel successfully. The McClary Co. claims to be the largest manufacturers under the British flag, and to a very great extent this growth is due to the persistent and carefully prepared advertising campaigns.
While the McClary people are large users of the daily newspaper space they do not think that an advertising campaign could be made successful in Canada without using the high-class weekly publications of which they have over two hundred on their list.
Peevish and Cross.
Peevish, cross babies are sick babies—their mother baby is always happy. Perhaps there may be nothing to indicate just what is the matter, but you may depend upon it there is something troubling the little one or he would not be cross. A few doses of Baby's Own Tablets will remove the cause and make baby happy. They are a certain cure for the minor ills of babyhood. Thousands of mothers keep them continually in the house to guard against the sudden illness of baby. A Tablet now and again will keep the little one well. Mrs. James Jewers, Beaver Harbor, N. S., says: 'I have given Baby's Own Tablets to my baby as occasion required since she was a day old. They have always helped her, and now at a year and a half old she is a fine, healthy child. The Tablets, I think, are indispensable to mothers of young children.' Sold by druggists or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.
The Halifax Herald of Wednesday says: "In the supreme court yesterday, on the application of William Chase, an interlocutory injunction was granted to restrain the Gaspareau Lumber Co. from completing the dam which they are constructing across the Gaspareau River, and one end of which is implanted on the property of the plaintiff, Chase. According to the affidavit of Mr. Chase, which was read in court, the defendant company has constructed the dam with the view of creating a pulp mill and with the apparent intention of piping the water stored above the dam to their mill below for manufacturing purposes. The company excavated on the property of the plaintiff, it is asserted for the purpose of getting earth for ballasting the dam. It is alleged that they also cut down a number of trees on the plaintiff's property. Mr. Chase also says that the company has left no fishway in the dam. He claims that he is entitled to have the usual flow of water past his property, that the company has no right to trespass on his property in the manner in which they have done so, and that if the company is allowed to maintain the dam at all they are at least bound to put in an adequate fishway. Mr. Chase seeks mandatory injunction to compel the company to tear down that part of the dam which has already been constructed. Messrs. McLean, Melish and Fulton are his solicitors.

Letters to the Editor.
To the Editor of THE ACADIAN.
DEAR SIR,—In THE ACADIAN of April 19th, I read with great interest the report of Board of Trade—especially the part referring to the purchase and improvement of historic land at Grand Pre.
I had just read in the "Examiner," a New York paper, an article by J. M. Clarkson, M. D., on the same subject. I am heartily in sympathy with the movement.
But another matter, nearer home, I think should be attended to first—the Cemetery. Longfellow calls it "God's Acre" and says:
I like that ancient Saxon phrase, which calls The burial ground "God's Acre." It is just; It consecrates each grave within its walls, And breathes a benison o'er the sleeping dust.
God's Acre! Yes that blessed name imparts Comfort to those, whose the grave have sown The seed, that they have garnered in their hearts, Their bread of life; alas! no more their own.
Into its furrows shall we all be cast, In the sure faith that we shall rise again, At the great harvest, when the Archangel's blast Shall winnow, like a fan, the chaff and grain, Then shall the good stand in immortal bloom. In the fair gardens of that second life, Each each bright blossom mingle its perfume With that of flowers which never bloomed on earth.
With thy rude ploughshare, Death, turn up the sod, And spread the furrow for the seed we sow; This is the field and acre of our God, This is the place where his main harvest grows.
Your cemetery is beautifully situated—the outlook has a fascination all its own. I used to spend many quiet hours there. But last year I had hardly seated myself when a stone went whistling by almost striking me, then another and another. I got up intending to take the names of the ones who had thrown them, but they were making hasty retreat. Then, through the main avenue, a constant stream of noisy men, women and children passed. I was told by citizens that flowers placed on graves were carried away and even plants removed.
Now I suggest a fence and gates. Let this spot be cared for and sacred.

Letters to the Editor.
To the Editor of THE ACADIAN.
DEAR SIR,—In THE ACADIAN of April 19th, I read with great interest the report of Board of Trade—especially the part referring to the purchase and improvement of historic land at Grand Pre.
I had just read in the "Examiner," a New York paper, an article by J. M. Clarkson, M. D., on the same subject. I am heartily in sympathy with the movement.
But another matter, nearer home, I think should be attended to first—the Cemetery. Longfellow calls it "God's Acre" and says:
I like that ancient Saxon phrase, which calls The burial ground "God's Acre." It is just; It consecrates each grave within its walls, And breathes a benison o'er the sleeping dust.
God's Acre! Yes that blessed name imparts Comfort to those, whose the grave have sown The seed, that they have garnered in their hearts, Their bread of life; alas! no more their own.
Into its furrows shall we all be cast, In the sure faith that we shall rise again, At the great harvest, when the Archangel's blast Shall winnow, like a fan, the chaff and grain, Then shall the good stand in immortal bloom. In the fair gardens of that second life, Each each bright blossom mingle its perfume With that of flowers which never bloomed on earth.
With thy rude ploughshare, Death, turn up the sod, And spread the furrow for the seed we sow; This is the field and acre of our God, This is the place where his main harvest grows.
Your cemetery is beautifully situated—the outlook has a fascination all its own. I used to spend many quiet hours there. But last year I had hardly seated myself when a stone went whistling by almost striking me, then another and another. I got up intending to take the names of the ones who had thrown them, but they were making hasty retreat. Then, through the main avenue, a constant stream of noisy men, women and children passed. I was told by citizens that flowers placed on graves were carried away and even plants removed.
Now I suggest a fence and gates. Let this spot be cared for and sacred.
P. M. KERROUR,
